CHRISTIANSON BECOMES GOVERNOR OF STATE

TAKES OATH AT JOINT SESSION OF LEGISLATURE

NEW GOVERNOR WILL BECOME MINNESOTA'S ECONOMY EXECUTIVE

DEMANDS ECONOMIC REORGANIZATION OF STATE GOVERNMENT

St. Paul, Jan. 7.—Theodore Christianson became governor of Minnesota today.

Before a joint session of the legislature he took the oath of office, succeeding J. A. O. Preus. Both are republicans, and friends.

Ex-Governor Preus will become the industrial representative of Minneapolis business interests.

Governor Christianson will become Minnesota's economy executive, if he has his way. He was inaugurated at noon.

Economic Reorganization

Economic reorganization of the state government, careful paring of departmental budgets, reduction of automobile license taxes in lieu of the gasoline tax impending, and general frugality where public funds are concerned were among his immediate demands upon the law-makers.

"I feel singularly fortunate," Governor Christianson said, "in that it is my opportunity to work with a group of men and women constituting a majority of this body, who have been my legislative associates, and with many of whom I have worked in this legislature for a decade. Out of this association has come a mutuality of understanding, and, I trust, of sympathy, which should make possible the utmost co-operation between the legislative and executive departments of the government for the next two years."

Heeds Voice of People

"The people of the state have spoken. In unmistakable terms they have expressed their desire for a reorganization of the state government and the utmost economy in its administration. They have declared against paternalism and against experiments in government ownership and operation of industrial enterprises. They have said they do not want increased bonded indebtedness. It is my duty as chief executive, and I am sure, your purpose, as members of the legislative branch of the government, to put into effect these mandates of the people."

Substantial Value Needed

"To have substantial value," Governor Christianson said, "the reorganization of state government should accomplish more than a mere grouping of administrative agencies on a functional basis. Such grouping is desirable as a means of centering responsibility, and eliminating overlapping of activities and personnel where such overlapping exists. Of greater importance is placing somewhere the power to limit these officials and employes in the spending of money."

"The only way to compel the administrative departments to exercise the most rigid economy is to lodge with the executive power to limit expenditures."

Interim Committee Report

"There will be submitted to you a report of the interim committee on reorganization of the state government. The essential recommendations of the committee are:

1. That the ninety-two boards, bureaus and departments of the state government be consolidated into a few major departments.

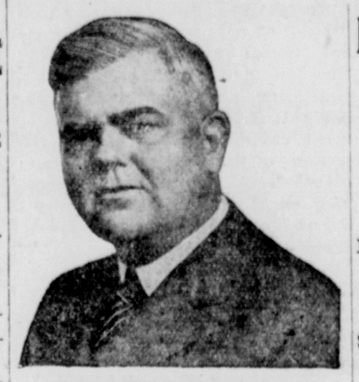

2. That the governor be given power to limit and control the expenditures of these departments through a department administration and financial control, in which shall be centered the budget making, purchasing, auditing, personnel selecting and tax regulating functions of the state.

3. Abolition of all departments and activities that are obsolete and the repeal of all laws creating functions which the state should no longer exercise.

This plan gives the executive power to limit and prevent the expenditure of public money. Giving the executive power to limit expenditures in no wise relieves the legislature of

ASKS HIS BROTHER'S DEATH PROBED

CHIEF JUSTICE HARRY OLSON OF CHICAGO MUNICIPAL COURT MAKES DEMAND

WANTS BODY EXHUMED AND EXAMINED FOR TRACES OF POISON

(By United Press)

Chicago, Jan. 7.—The curtain almost down on the McClintock death drama has been whanged up again by Chief Justice Harry Olson of municipal court, who insists that his brother's death also be investigated.

Olson said he was not satisfied with the investigation of the death of William McClintock, "millionaire orphan."

He wants the case to continue and the body of his brother, Dr. Oscar Olson, exhumed and examined for poison. Dr. Olson died about three years ago. The latter's death followed a visit by Mr. and Mrs. William D. Shepherd, foster parents of McClintock, Olson stated at what was to have been the final hearing in the McClintock case. The justice also stated he was suspicious of the manner of the death of the mother of young McClintock.

After stating that the Olson family had known Billie McClintock's mother since her childhood and Dr. Olson had acted as medical advisor to the McClintocks, the justice said:

"Billie visited my brother two days before my brother died. Dr. Olson was then recovering from a slight attack of ptomaine poisoning. He was declared out of danger. The next day after Billie had visited Dr. Olson for several hours the Shepherds called for the first time in six years. They brought my brother flowers and asked if Billie had been talking with my brother the day before.

"I might add here that my brother had often told Billie that he should assume control of his own affairs as soon as possible. At the time of my brother's death the Shepherds were living off Billie, staying at his home and eating his food.

"The Shepherds remained at my brother's home for several hours and just before they left Mr. Shepherd was in the room with my brother with the door almost closed for some moments.

"The doctor's death occurred the day after the Shepherds had called on him. The doctor became rapidly worse after the visit—we even feared suicide at that time from poison, because his illness had not warranted such a change.

"I do not know what we will find in my brother's body. Three years is a long time, and I will not be satisfied until an examination is made."

Olson pointed out that Mrs. Clintock died shortly after the Shepherds joined her. He said the burial was so hurried that he refused to act as pallbearer.

Shepherd, who received the bulk of the fortune under the will left by young McClintock, is in Albuquerque for a rest. He came here for examination when the death probe started and returned a few days ago.

Attorney Robert H. Stoll, counsel for Shepherd, denounced Olson's testimony as a "vile insinuation" and said action would be taken. Shepherd will return for further examination, if necessary, Stoll said.

RUTHENBERG DENIED BAIL ON APPEAL

MICHIGAN SUPREME COURT TAKES ACTION AGAINST "RED"

STATE COURT ALSO REFUSES A WRIT OF ERROR ON FINAL JUDGMENT

(By United Press)

Lansing, Mich., Jan. 7.—The Michigan supreme court today refused to admit Charles E. Ruthenberg, prominent "red," leader convicted of violation of the state syndicalism law, to bail pending appeal in the United States supreme court.

The state court also refused a writ of error on the final judgment of the Barien county circuit court, holding the decision of the high courts were not subject to further appeal.

Ruthenberg is being held in jail at St. Joseph, pending transfer to the state prison at Jackson, where he is sentenced to serve from 3 to 10 years for violating the state syndicalism law by participating in the communist party convention at Bridgeman, Mich., in August, 1922.

FREAK OF FATE AVERTS TRAIN WRECK SLAUGHTER

ONLY 4 PERSONS HURT IN COLLISION OUTSIDE OF CHICAGO

B. & O. FLYER HAD THE GREEN LIGHT SIGNAL TO COME ON

(By United Press)

Chicago, Jan. 7.—A freak of fate alone averted a slaughter here early today when a western Indiana accommodation train crashed into the New York Express, crack Baltimore & Ohio flyer, outside Chicago.

Only four persons were hurt. The B. & O. mail car was hurled high into the air and thrown into the Oakdale station, a flimsy wooden suburban depot. The fireman and engineer on the Western Indiana train were hurt, but not seriously.

The B. & O. flyer had the green light to come on when the engineer, George Campbell of Garrett, Indiana, sighted the western Indiana train speeding toward the crossing. Campbell opened his throttle in the hope of speeding out of danger. The western Indiana locomotive plunged into the tender of Campbell's train, hurling the mail coach and baggage car onto the depot.

ALLEGED STRIKER MURDERED IN FRONT OF STORE

Scranton, Pa., Jan. 7.—Steve Freley, 21, said to be one of the Pennsylvania Coal company's strikers, was murdered early today while standing in front of a store at Old Forge near here.

The murder is the second in two days among strikers of the coal company.

REDUCTIONS IN RIVERS AND HARBORS BILL

Washington, Jan. 7.—Reductions in the $33,000,000 rivers and harbors authorization bill which it is hoped will pave the way for its passage this session were affected today by the house rivers and harbors committee. The committee agreed to modifications which will reduce the total authorization to approximately $29,150,000.

ARMY AIRPLANE HITS MOTOR TRUCK, TWO MEN KILLED

(By United Press)

Dayton, O., Jan. 7.—Two men were killed when an army airplane crashed into a motor truck on which they were riding at Wilbur Wright field today.

The dead are Leon C. Harness and Paul Long, field employes.

Lieut. E. H. Barksdale, pilot of the plane, and George Althoff, observer, escaped with minor injuries.

The plane was flying low over Wilbur Wright speed course when its landing gear struck the truck.

STUDENTS IN CENSUS OF STATE LAKES

CROW WING COUNTY TO AID IN THE COMPILATION

87 COUNTIES OF STATE TO BE IN THE ENUMERATION

St. Paul, Jan. 7.—Several hundred students of the School of Agriculture at the University of Minnesota, under direction of Prof. D. D. Mayme, principal, will make a complete census of the lakes in Minnesota covering all of the eighty-seven counties in the state. This announcement made this week by H. C. Hotaling, executive secretary of the Ten Thousand Lakes of Minnesota Association.

The agricultural students will report the name, size and location of every lake in the state, meantime gathering other interesting collateral data regarding the lakes in each county. They will seek the co-operation of county and township officials to assist them and check their returns on individual counties and townships.

It is believed that this will be the most thorough and complete census of the Minnesota lakes ever made and that it will reveal a large amount of highly interesting data. In some counties it will be possible for one or two students to make the lake census without difficulty. In other counties, particularly in the northern part of the state, it will be necessary to sub-divide individual counties and assign only a portion of a county to one student. Such counties as Otter-tail, where there are 1,029 lakes, will call for the attention of a group of students.

As far as possible, Prof. Mayme is assigning students to do the work in their home counties, with which they are most familiar. In this way, it is believed, each county will have the benefit of observations by young men and women already familiar with its main characteristics.

When the students have completed their work of counting the lakes, the Ten Thousand Lakes of Minnesota Association, for the first time in its history, will be in possession of complete and detailed data on the lakes of Minnesota. This data will prove invaluable in preparing the annual national advertising campaigns conducted by the association. Heretofore, the expense entailed in making such a census seemed prohibitive.

The arrangement made with the agricultural school students resulted from an address delivered at the school by Mr. Hotaling shortly before Christmas. On that occasion, Mr. Hotaling mentioned the dearth of reliable information regarding Minnesota's lakes and outlined some of the problems met in directing tourists to lakes in all sections of the state.

"When a man from Iowa drives up to headquarters and says he wants to join some friends at a cottage on Long Lake, Minnesota, and has no more idea of where he wants to go than that, the individual trying to direct him has a job on his hands, because there are eighty-eight Long lakes in Minnesota," Mr. Hotaling pointed out.

LEADERS OF AMERICAN OIL INDUSTRY

CONFERENCE CALLED TODAY BY PRESIDENT COOLIDGE

WILL BE ASKED TO COME TO WASHINGTON IN FEBRUARY

(By United Press)

Washington, Jan. 7.—A conference of leaders of the American oil industry was called today by President Coolidge's oil conservation board at its first meeting.

The oil men will be asked to come to Washington early in February to discuss the present rapid depletion of the nation's oil reserves with the board, which consists of Secretary of War Weeks, Secretary of the Navy Wilbur, Secretary of the Interior Work, Secretary of Commerce Hoover.

Secretary Work was elected chairman of the board and a sub-committee of federal officials was appointed to help in devising a national policy for the conservation of oil and gasoline resources.

HIBBING MAN SHOOTS COLLEGE GIRL, THEN SELF

TRAGEDY TAKES PLACE IN THE "FRENCH HOUSE," MADISON, WIS.

WOUNDED GIRL REVIVED TO GIVE NAME OF ASSAILANT

(By United Press)

Madison, Wis., Jan. 7.—Miss Lora Palmer, 28, university instructor and chaperone at the French House, was shot and fatally wounded today by F. X. Bernard, Hibbing, Minn.

Bernard blew his brains out a few moments after the shooting, which occurred in the front room of the house.

The wounded girl regained consciousness long enough to reveal the name of her assailant while she was being taken to general hospital.

She became unconscious again before she could give the motive for the shooting.

No one witnessed the tragedy. A maid at the house heard the shots and ran to the living room to find Miss Palmer lying wounded on a couch. Bernard had just killed himself.

Miss Palmer was shot twice beneath the left lung, examination by surgeons showed.

Bernard, who is about 20 years old, is not listed as a student here.

His body was found near Miss Palmer.

About 12 university co-eds live at the French House, which was established to promote the study of the French language, literature and history.

Miss Palmer and Bernard were sweethearts. Other girls living at the French House admitted the two corresponded, although they had never seen Bernard.

Bernard came to the house this morning. A maid let him in. Ten minutes later shots were heard, and the maid found Bernard dead and Miss Palmer dying.

Miss Palmer, who lived at La-Crosse, Wis., had been an instructor in the Romance languages department for the past two years. She is a graduate of the university.

About three years ago she was seriously injured in an automobile accident in which another co-ed was killed and several badly hurt.

BERNARD LEFT HIBBING SUNDAY

Hibbing, Minn., Jan. 7.—Francis X. Bernard, 35, left here last Sunday for Madison, Wis., where he fatally wounded Lora Palmer and killed himself today, according to his associates.

Before leaving he was very nervous for about a week, it is said.

Bernard's two children are living with their grandmother here. He was separated from his wife about a year ago and received a divorce last summer.

His family moved here from Eveleth and Bernard was employed as a chemist by the Oliver Mining company.

J. A. O. PREUS
Retiring Governor

N. D. GOVERNOR URGES NO MORE EXPERIMENTS MADE

HOPES TO MAKE STATE-OWNED MILL AND ELEVATOR PAY

PRAISES BANK OF NORTH DAKOTA INSTITUTION

(By United Press)

Bismarck, N. D., Jan. 7.—In his message to the ninteeenth legislative assembly of North Dakota, Governor A. G. Sorlie, second non-partisan governor of the state, urged no more experiments in state ownership of industries at this time.

Thus throwing down the original league program of statewide ownership of industries, he reiterated his campaign pledge to try to make a success out of the failure of the first experiment—the state-owned mill and elevator at Grand Forks. He promised to make it pay.

Governor Sorlie called the bank of North Dakota, also a non-partisan institution, the "greatest forward step of a decade along political and economic lines." He said the bank had drawn the criticism because "it threatened to make the state economically independent of the eastern money markets."

He recommended:

A gasoline tax to build and repair roads.

Repeal of the state law against the sale of cigarettes and snuff and a tax on the sale of same.

New state grain grading and dockage laws if the present laws now before the supreme court are declared unconstitutional.

A state-owned radio broadcasting station at Bismarck to advertise the state.

Retiring Governor R. A. Nestos advocated the manufacture of electricity at lignite mines to distribute current over the state.

FINANCIAL MATTERS DISCUSSED PRIVATELY

(By United Press)

Paris, Jan. 7.—Colonel James A. Logan, American observer of the reparations commission and Winston Churchill, British chancellor of the exchequer, improved the opportunity of their attendance at the allied finance ministers' conference to discuss privately today financial matters affecting their respective nations.

A British communique announced the Churchill-Logan conference and added that there are good prospects of an early settlement.

TONY REAMER LOOMS BIG IN CABIN MYSTERY

CHARGED WITH THE MURDER OF MRS. DEAN WHEELER

LATTER WAS WIFE OF A KANSAS TENDERFOOT, NORTH OF LAKE OF THE WOODS

(By United Press)

Baudette, Minn., Jan. 7. — Tony Reamer faced the accusing eyes of fellow bushwhackers today.

He is charged with the murder of Mrs. Dean Wheeler, a Kansas tenderfoot's wife, in a cabin north of Lake of the Woods.

Authorities went into the snowbound north woods to bring out a number of settlers—trappers and woodsmen—who knew Reamer and his habits. They were brought here to testify at Reamer's hearing today.

Reamer has persistently denied that he is responsible for the death of Mrs. Wheeler. She was found on the cabin floor in Conrad Haugen's shack—felled by a blow at the base of the skull and stabbed through the heart with a butcher knife.

It was reported to County Attorney E. C. Middleton that Reamer knew Mrs. Wheeler in Kansas before her marriage to Dean Wheeler late last fall. They had been wed only three weeks when the murder at first threw suspicion around the groom. The Wheelers drove from Kansas and were stopping with the Haugens for the winter, cutting logs for a cabin of their own in the spring.

Kansas detectives who probed the case had a theory that Reamer was either enraged by emotion or jealousy when he came upon Mrs. Wheeler alone. Reamer admitted he visited the cabin on the afternoon of the murder but denied knowledge of the crime.

After a warrant was issued for his arrest Reamer fled to Canada and doubled back into Minnesota, being caught at Stewart, Minn.

5 HURT IN A RAILWAY WRECK

2 COACHES AND BAGGAGE CAR LEAVE RAILS, GROSS, MICHIGAN

(By United Press)

Gross, Mich., Jan. 7.—Five persons were injured—none believed seriously—when two coaches and a baggage car left the rails and plunged over a 20-foot embankment eight miles west of here today.

Steel coaches used on the train saved the lives of passengers. Many persons were taken to private homes here suffering from shock, but most of them were able to leave in a few hours when relief trains arrived.

Traffic was again normal over the railroad, officials said.

There was little disorder following the crash, trainmen said.

Rum Sleuth Drunkard, Wife Says in Divorce

Detroit, Jan. 7.—Part of Policeman Herbert Corp's duty as a member of the "booze squad" was seizing liquor, his wife said in her divorce trial here today.

Policeman Corp never shirked a duty. His wife said he became a drunkard.

Whenever he took Mrs. Corp for an automobile ride in the evening frequent stops were made at "blind pigs," where he would acquire evidence of internal nature, she said.

Corp never drank before they were married, Mrs. Corp said.

The Verb "To Woo?"

"The business girl finds a husband by the simple expedient of prosecuting her search where men conjugate."—From a Canadian Paper.

ASKS HIS BROTHER'S DEATH PROBED

CHIEF JUSTICE HARRY OLSON OF CHICAGO MUNICIPAL COURT MAKES DEMAND

WANTS BODY EXHUMED AND EXAMINED FOR TRACES OF POISON

(By United Press)

Chicago, Jan. 7.—The curtain almost down on the McClintock death drama has been whanged up again by Chief Justice Harry Olson of municipal court, who insists that his brother's death also be investigated.

Olson said he was not satisfied with the investigation of the death of William McClintock, "millionaire orphan."

He wants the case to continue and the body of his brother, Dr. Oscar Olson, exhumed and examined for poison. Dr. Olson died about three years ago. The latter's death followed a visit by Mr. and Mrs. William D. Shepherd, foster parents of McClintock, Olson stated at what was to have been the final hearing in the McClintock case. The justice also stated he was suspicious of the manner of the death of the mother of young McClintock.

After stating that the Olson family had known Billie McClintock's mother since her childhood and Dr. Olson had acted as medical advisor to the McClintocks, the justice said:

"Billie visited my brother two days before my brother died. Dr. Olson was then recovering from a slight attack of ptomaine poisoning. He was declared out of danger. The next day after Billie had visited Dr. Olson for several hours the Shepherds called for the first time in six years. They brought my brother flowers and asked if Billie had been talking with my brother the day before.

"I might add here that my brother had often told Billie that he should assume control of his own affairs as soon as possible. At the time of my brother's death the Shepherds were living off Billie, staying at his home and eating his food.

"The Shepherds remained at my brother's home for several hours and just before they left Mr. Shepherd was in the room with my brother with the door almost closed for some moments.

"The doctor's death occurred the day after the Shepherds had called on him. The doctor became rapidly worse after the visit—we even feared suicide at that time from poison, because his illness had not warranted such a change.

"I do not know what we will find in my brother's body. Three years is a long time, and I will not be satisfied until an examination is made."

Olson pointed out that Mrs. Clintock died shortly after the Shepherds joined her. He said the burial was so hurried that he refused to act as pallbearer.

Shepherd, who received the bulk of the fortune under the will left by young McClintock, is in Albuquerque for a rest. He came here for examination when the death probe started and returned a few days ago.

Attorney Robert H. Stoll, counsel for Shepherd, denounced Olson's testimony as a "vile insinuation" and said action would be taken. Shepherd will return for further examination, if necessary, Stoll said.

RUTHENBERG DENIED BAIL ON APPEAL

MICHIGAN SUPREME COURT TAKES ACTION AGAINST "RED"

STATE COURT ALSO REFUSES A WRIT OF ERROR ON FINAL JUDGMENT

(By United Press)

Lansing, Mich., Jan. 7.—The Michigan supreme court today refused to admit Charles E. Ruthenberg, prominent "red," leader convicted of violation of the state syndicalism law, to bail pending appeal in the United States supreme court.

The state court also refused a writ of error on the final judgment of the Barien county circuit court, holding the decision of the high courts were not subject to further appeal.

Ruthenberg is being held in jail at St. Joseph, pending transfer to the state prison at Jackson, where he is sentenced to serve from 3 to 10 years for violating the state syndicalism law by participating in the communist party convention at Bridgeman, Mich., in August, 1922.

FREAK OF FATE AVERTS TRAIN WRECK SLAUGHTER

ONLY 4 PERSONS HURT IN COLLISION OUTSIDE OF CHICAGO

B. & O. FLYER HAD THE GREEN LIGHT SIGNAL TO COME ON

(By United Press)

Chicago, Jan. 7.—A freak of fate alone averted a slaughter here early today when a western Indiana accommodation train crashed into the New York Express, crack Baltimore & Ohio flyer, outside Chicago.

Only four persons were hurt. The B. & O. mail car was hurled high into the air and thrown into the Oakdale station, a flimsy wooden suburban depot. The fireman and engineer on the Western Indiana train were hurt, but not seriously.

The B. & O. flyer had the green light to come on when the engineer, George Campbell of Garrett, Indiana, sighted the western Indiana train speeding toward the crossing. Campbell opened his throttle in the hope of speeding out of danger. The western Indiana locomotive plunged into the tender of Campbell's train, hurling the mail coach and baggage car onto the depot.

ALLEGED STRIKER MURDERED IN FRONT OF STORE

Scranton, Pa., Jan. 7.—Steve Freley, 21, said to be one of the Pennsylvania Coal company's strikers, was murdered early today while standing in front of a store at Old Forge near here.

The murder is the second in two days among strikers of the coal company.

REDUCTIONS IN RIVERS AND HARBORS BILL

Washington, Jan. 7.—Reductions in the $33,000,000 rivers and harbors authorization bill which it is hoped will pave the way for its passage this session were affected today by the house rivers and harbors committee. The committee agreed to modifications which will reduce the total authorization to approximately $29,150,000.

ARMY AIRPLANE HITS MOTOR TRUCK, TWO MEN KILLED

(By United Press)

Dayton, O., Jan. 7.—Two men were killed when an army airplane crashed into a motor truck on which they were riding at Wilbur Wright field today.

The dead are Leon C. Harness and Paul Long, field employes.

Lieut. E. H. Barksdale, pilot of the plane, and George Althoff, observer, escaped with minor injuries.

The plane was flying low over Wilbur Wright speed course when its landing gear struck the truck.

STUDENTS IN CENSUS OF STATE LAKES

CROW WING COUNTY TO AID IN THE COMPILATION

87 COUNTIES OF STATE TO BE IN THE ENUMERATION

St. Paul, Jan. 7.—Several hundred students of the School of Agriculture at the University of Minnesota, under direction of Prof. D. D. Mayme, principal, will make a complete census of the lakes in Minnesota covering all of the eighty-seven counties in the state. This announcement made this week by H. C. Hotaling, executive secretary of the Ten Thousand Lakes of Minnesota Association.

The agricultural students will report the name, size and location of every lake in the state, meantime gathering other interesting collateral data regarding the lakes in each county. They will seek the co-operation of county and township officials to assist them and check their returns on individual counties and townships.

It is believed that this will be the most thorough and complete census of the Minnesota lakes ever made and that it will reveal a large amount of highly interesting data. In some counties it will be possible for one or two students to make the lake census without difficulty. In other counties, particularly in the northern part of the state, it will be necessary to sub-divide individual counties and assign only a portion of a county to one student. Such counties as Ottertail, where there are 1,029 lakes, will call for the attention of a group of students.

As far as possible, Prof. Mayme is assigning students to do the work in their home counties, with which they are most familiar. In this way, it is believed, each county will have the benefit of observations by young men and women already familiar with its main characteristics.

When the students have completed their work of counting the lakes, the Ten Thousand Lakes of Minnesota Association, for the first time in its history, will be in possession of complete and detailed data on the lakes of Minnesota. This data will prove invaluable in preparing the annual national advertising campaigns conducted by the association. Heretofore, the expense entailed in making such a census seemed prohibitive.

The arrangement made with the agricultural school students resulted from an address delivered at the school by Mr. Hotaling shortly before Christmas. On that occasion, Mr. Hotaling mentioned the dearth of reliable information regarding Minnesota's lakes and outlined some of the problems met in directing tourists to lakes in all sections of the state.

"When a man from Iowa drives up to headquarters and says he wants to join some friends at a cottage on Long Lake, Minnesota, and has no more idea of where he wants to go than that, the individual trying to direct him has a job on his hands, because there are eighty-eight Long lakes in Minnesota," Mr. Hotaling pointed out.

LEADERS OF AMERICAN OIL INDUSTRY

CONFERENCE CALLED TODAY BY PRESIDENT COOLIDGE

WILL BE ASKED TO COME TO WASHINGTON IN FEBRUARY

(By United Press)

Washington, Jan. 7.—A conference of leaders of the American oil industry was called today by President Coolidge's oil conservation board at its first meeting.

The oil men will be asked to come to Washington early in February to discuss the present rapid depletion of the nation's oil reserves with the board, which consists of Secretary of War Weeks, Secretary of the Navy Wilbur, Secretary of the Interior Work, Secretary of Commerce Hoover.

Secretary Work was elected chairman of the board and a sub-committee of federal officials was appointed to help in devising a national policy for the conservation of oil and gasoline resources.

HIBBING MAN SHOOTS COLLEGE GIRL, THEN SELF

TRAGEDY TAKES PLACE IN THE "FRENCH HOUSE," MADISON, WIS.

WOUNDED GIRL REVIVED TO GIVE NAME OF ASSAILANT

(By United Press)

Madison, Wis., Jan. 7.—Miss Lora Palmer, 28, university instructor and chaperone at the French House, was shot and fatally wounded today by F. X. Bernard, Hibbing, Minn.

Bernard blew his brains out a few moments after the shooting, which occurred in the front room of the house.

The wounded girl regained consciousness long enough to reveal the name of her assailant while she was being taken to general hospital.

She became unconscious again before she could give the motive for the shooting.

No one witnessed the tragedy. A maid at the house heard the shots and ran to the living room to find Miss Palmer lying wounded on a couch. Bernard had just killed himself.

Miss Palmer was shot twice beneath the left lung, examination by surgeons showed.

Bernard, who is about 20 years old, is not listed as a student here.

His body was found near Miss Palmer.

About 12 university co-eds live at the French House, which was established to promote the study of the French language, literature and history.

Miss Palmer and Bernard were sweethearts. Other girls living at the French House admitted the two corresponded, although they had never seen Bernard.

Bernard came to the house this morning. A maid let him in. Ten minutes later shots were heard, and the maid found Bernard dead and Miss Palmer dying.

Miss Palmer, who lived at LaCrosse, Wis., had been an instructor in the Romance languages department for the past two years. She is a graduate of the university.

About three years ago she was seriously injured in an automobile accident in which another co-ed was killed and several badly hurt.

BERNARD LEFT HIBBING SUNDAY

Hibbing, Minn., Jan. 7.—Francis X. Bernard, 35, left here last Sunday for Madison, Wis., where he fatally wounded Lora Palmer and killed himself today, according to his associates.

Before leaving he was very nervous for about a week, it is said.

Bernard's two children are living with their grandmother here. He was separated from his wife about a year ago and received a divorce last summer.

His family moved here from Eveleth and Bernard was employed as a chemist by the Oliver Mining company.

J. A. O. PREUS
Retiring Governor

N. D. GOVERNOR URGES NO MORE EXPERIMENTS MADE

HOPES TO MAKE STATE-OWNED MILL AND ELEVATOR PAY

PRAISES BANK OF NORTH DAKOTA INSTITUTION

(By United Press)

Bismarck, N. D., Jan. 7.—In his message to the ninteeenth legislative assembly of North Dakota, Governor A. G. Sorlie, second non-partisan governor of the state, urged no more experiments in state ownership of industries at this time.

Thus throwing down the original league program of statewide ownership of industries, he reiterated his campaign pledge to try to make a success out of the failure of the first experiment—the state-owned mill and elevator at Grand Forks. He promised to make it pay.

Governor Sorlie called the bank of North Dakota, also a non-partisan institution, the "greatest forward step of a decade along political and economic lines." He said the bank had drawn the criticism because "it threatened to make the state economically independent of the eastern money markets."

He recommended:

A gasoline tax to build and repair roads.

Repeal of the state law against the sale of cigarettes and snuff and a tax on the sale of same.

New state grain grading and dockage laws if the present laws now before the supreme court are declared unconstitutional.

A state-owned radio broadcasting station at Bismarck to advertise the state.

Retiring Governor R. A. Nestos advocated the manufacture of electricity at lignite mines to distribute current over the state.

FINANCIAL MATTERS DISCUSSED PRIVATELY

(By United Press)

Paris, Jan. 7.—Colonel James A. Logan, American observer of the reparations commission and Winston Churchill, British chancellor of the exchequer, improved the opportunity of their attendance at the allied finance ministers' conference to discuss privately today financial matters affecting their respective nations.

A British communique announced the Churchill-Logan conference and added that there are good prospects of an early settlement.

TONY REAMER LOOMS BIG IN CABIN MYSTERY

CHARGED WITH THE MURDER OF MRS. DEAN WHEELER

LATTER WAS WIFE OF A KANSAS TENDERFOOT, NORTH OF LAKE OF THE WOODS

(By United Press)

Baudette, Minn., Jan. 7. — Tony Reamer faced the accusing eyes of fellow bushwhackers today.

He is charged with the murder of Mrs. Dean Wheeler, a Kansas tenderfoot's wife, in a cabin north of Lake of the Woods.

Authorities went into the snowbound north woods to bring out a number of settlers—trappers and woodsmen—who knew Reamer and his habits. They were brought here to testify at Reamer's hearing today.

Reamer has persistently denied that he is responsible for the death of Mrs. Wheeler. She was found on the cabin floor in Conrad Haugen's shack—felled by a blow at the base of the skull and stabbed through the heart with a butcher knife.

It was reported to County Attorney E. C. Middleton that Reamer knew Mrs. Wheeler in Kansas before her marriage to Dean Wheeler late last fall. They had been wed only three weeks when the murder at first threw suspicion around the groom. The Wheelers drove from Kansas and were stopping with the Haugens for the winter, cutting logs for a cabin of their own in the spring.

Kansas detectives who probed the case had a theory that Reamer was either enraged by emotion or jealousy when he came upon Mrs. Wheeler alone. Reamer admitted he visited the cabin on the afternoon of the murder but denied knowledge of the crime.

After a warrant was issued for his arrest Reamer fled to Canada and doubled back into Minnesota, being caught at Stewart, Minn.

5 HURT IN A RAILWAY WRECK

2 COACHES AND BAGGAGE CAR LEAVE RAILS, GROSS, MICHIGAN

(By United Press)

Gross, Mich., Jan. 7.—Five persons were injured—none believed seriously—when two coaches and a baggage car left the rails and plunged over a 20-foot embankment eight miles west of here today.

Steel coaches used on the train saved the lives of passengers. Many persons were taken to private homes here suffering from shock, but most of them were able to leave in a few hours when relief trains arrived.

Traffic was again normal over the railroad, officials said.

There was little disorder following the crash, trainmen said.

Rum Sleuth Drunkard, Wife Says in Divorce

Detroit, Jan. 7.—Part of Policeman Herbert Corp's duty as a member of the "booze squad" was seizing liquor, his wife said in her divorce trial here today.

Policeman Corp never shirked a duty. His wife said he became a drunkard.

Whenever he took Mrs. Corp for an automobile ride in the evening frequent stops were made at "blind pigs," where he would acquire evidence of internal nature, she said.

Corp never drank before they were married, Mrs. Corp said.

The Verb "To Woo?"

"The business girl finds a husband by the simple expedient of prosecuting her search where men conjugate."—From a Canadian Paper.

LATE MINING NEWS OF THE CUYUNA RANGE

Winston & Dear have started stripping the Evergreen property which lies north and between Crosby and Ironton. It includes the Charles Oberg homestead. Stripping operations are expected to continue for a period of two and a half years.

Butler Brothers are reported to have moved in their equipment preparatory to stripping the Cuyuna-Mille Lacs property on Mahnomen lake, northwest of Ironton.

The Meacham underground mine are now about back to normal output. They are stockpiling.

The Kennedy mine of Pickands-Mather company has not been mined for several months, but it is expected that the state lease under Rabbit lake may afford the company large operations in the near future.

"Supplice"

The meaning of the word supplice is "punishment; torture; pain and torment." As far back as 1656 the word was used by Blount to express the same meaning. There is also a passage in one of Mrs. Oliphant's works which reads: "It is easier to play the victim under the supplice inflicted by a pretty girl, than by two mature matrons."—Literary Digest.

GOD'S WORD

Its Infallibility Stressed by Evangelist Armin Holzer

The infallibility of the word of God was the subject of the Rev. Armin A. Holzer who is conducting the Bible Conference at the Full Gospel church on Kindred street. The church auditorium was filled with a truly representative audience to hear the Evangelist.

His text was taken from the 19th Psalm the 8th verse. "The Statutes of the Lord are right." Old books—the Evangelist said—go out of date. They have a time to be born, they grow in strength. They have their middle age of usefulness, they grow old and they die. But not the Bible. It never gets out of date but is always a little ahead of its time.

Some of the epigramic statements Rev. Holzer made are well worth while remembering. "You do not love God any more then you love God's Book." Your children will not thank you in Eternity for the amount of money you have left them but they will either bless or curse your memory because of the attitude you have taken to the Bible and have taught them to do likewise."

Again he related an experience when once lecturing somewhere in the States a fine and highly educated Jewish young man came up to him and said: "I am somewhat surprised Mr. Holzer that an intelligent man like you can still believe in the existence of God." "I am so glad to meet you," Holzer replied "for I have read of you before, I met you." "Where did you read about me," the young man inquired. "Why in the Psalms where the informer informs me that "the fool hag said in his heart there is no God."

Fools of our time have grown in folly. For in Bible times they only said it in their hearts and today they blubber it out with their lips. The Bible will be able to comfort us after father and mother and friends are all dead and gone. Friends can accompany us till to the grave but God's word goes with us through the valley of the shadow of dead. There were few eyes dry last night and many came forward resolving to give the Bible a larger place in their life.

Tonight Rev. Holzer will speak on "The Broken Down Altars in Brainerd Homes and Churches." The class for divine healing is growing and many are benefited by these Bible teachings for the body. A great program for the rest of the sessions of the Conference has been prepared. A fine delegation came last night from Pillager where Evangelist Holzer just closed a most successful campaign.

SAGATUN LODGE

Sons of Norway Will Install New Officers at January Meeting

Sagatun Lodge, No. 18, Sons of Norway, will hold its regular meeting on Thursday evening, January 8th, at the I. O. O. F. hall.

After the business meeting the officers elected for 1925 will be installed in their respective offices, as follows:

President—C. M. Olson.
Vice President—Axel Moe.
Judge— Carl Dybvik.
Secretary—William O. Olson.
Assistant Secretary—J. O. Huseby.
Financial Secretary—Miss Christine Olson.
Treasurer—A. P. Solheim.
Regent—Olaf Johnson.
Marshall—John Jackson.
Assistant Marshall—A. M. Dybvik.
Guard—J. Robertson.

It is hoped that some of the officers from the First district will be present to conduct the installation.

All members and their friends are asked to make a special effort to be present at this meeting. Refreshments will be served, and a good time is assured all.

Clara Luther League

Mr. and Mrs. R. N. Lindberg will entertain the Luther League in the church parlors on Thursday evening. The program begins at 8 o'clock.

"Supplice"

The meaning of the word supplice is "punishment; torture; pain and torment." As far back as 1656 the word was used by Blount to express the same meaning. There is also a passage in one of Mrs. Oliphant's works which reads: "It is easier to play the victim under the supplice inflicted by a pretty girl, than by two mature matrons."—Literary Digest.

GOD'S WORD

Its Infallibility Stressed by Evangelist Armin Holzer

The infallibility of the word of God was the subject of the Rev. Armin A. Holzer who is conducting the Bible Conference at the Full Gospel church on Kindred street. The church auditorium was filled with a truly representative audience to hear the Evangelist.

His text was taken from the 19th Psalm the 8th verse. "The Statutes of the Lord are right." Old books—the Evangelist said—go out of date. They have a time to be born, they grow in strength. They have their middle age of usefulness, they grow old and they die. But not the Bible. It never gets out of date but is always a little ahead of its time.

Some of the epigramic statements Rev. Holzer made are well worth while remembering. "You do not love God any more then you love God's Book." Your children will not thank you in Eternity for the amount of money you have left them but they will either bless or curse your memory because of the attitude you have taken to the Bible and have taught them to do likewise."

Again he related an experience when once lecturing somewhere in the States a fine and highly educated Jewish young man came up to him and said: "I am somewhat surprised Mr. Holzer that an intelligent man like you can still believe in the existence of God." "I am so glad to meet you," Holzer replied "for I have read of you before, I met you." "Where did you read about me," the young man inquired. "Why in the Psalms where the informer informs me that "the fool hag said in his heart there is no God."

Fools of our time have grown in folly. For in Bible times they only said it in their hearts and today they blubber it out with their lips. The Bible will be able to comfort us after father and mother and friends are all dead and gone. Friends can accompany us till to the grave but God's word goes with us through the valley of the shadow of dead. There were few eyes dry last night and many came forward resolving to give the Bible a larger place in their life.

Tonight Rev. Holzer will speak on "The Broken Down Altars in Brainerd Homes and Churches." The class for divine healing is growing and many are benefited by these Bible teachings for the body. A great program for the rest of the sessions of the Conference has been prepared. A fine delegation came last night from Pillager where Evangelist Holzer just closed a most successful campaign.

DISTRICT COURT PROCEEDINGS

George Shanks Sentenced to Indeterminate Term at Stillwater

OLE RODMAN TO ENTER PLEA

Case of State Against Paul Donahue Goes to the Jury in Afternoon

George Shanks, who confessed and plead guilty in district court of robbery in the third degree, was sentenced to an indeterminate term at the state prison at Stillwater.

The defendant was brought before the court on Wednesday morning, and after being examined was sentenced as follows: "It is considered and adjudged that you, George Edgar Shanks, as punishment for the crime of robbery in the third degree, of which you have been duly convicted upon your plea of guilty, be and you are hereby sentenced to the state prison at Stillwater, at hard labor, until discharged by due process of law."

Snanks plead guilty to entering the home of John Hedstrom in Northeast Brainerd, and taking from Mr. Hedstrom $5.50, after knocking him down and otherwise abusing him

Ole Rodman, charged with Shanks in this offense, was also before the court on Wednesday, with his attorney, W. H. Crowell, and requested further time in which to make his plea. A continuance was granted until this evening at five o'clock.

In the case of the state against Ralph I. Denton, indicted by the grand jury with abandonment of his three-year old daughter, was before the court and S. F. Alderman was appointed his counsel.

The case of the state against Paul Donahue, charged with taking an Essex car from S. H. Schnell, in Superior, Wisconsin, on July 17th, was brought to a close and given to the jury late this afternoon.

At the close of the state's testimony in this case, the defense moved that the action be dismissed upon the grounds that the state had failed to establish a cause of action. This motion was denied.

The defense, in its testimony called as witnesses, Celia Gilrane, companion of Donahue's, Hazel Lofkin, Harry Schapny and Julius Paul. Donahue took the stand in his own behalf.

It was brought out in the state's testimony that the Essex car, valued at $700, was stolen on the evening of July 17th, in Superior, and that it was next seen at the Adams cottage, at Bay lake, on August 15th, where it was attached to a small home electric lighting plant and furnishing light for the cottage.

Donahue, "Tip" O'Neil, whose real name is John W. Stearns, and who was convicted in Minneapolis some time ago, with other companions were occupying the Adams cottage in August.

Exibits produced by the state included "doctored" automobile license plates, said to have been used on the Essex car, and other license plates used on the car when it was driven to Brainerd on one occassion, a sawed-off shotgun, found by sheriff's officers in the grass near the cottage, two revolvers with their holsters, and merchandise, said to have been taken from the store of Max Ruttger, at Bay lake.

Bethlehem Lutheran Church

The annual meeting of the Bethlehem Lutheran church will be held on Monday evening, January 12th, at 7:45 o'clock.

Bethlehem Junior Choir

The Junior choir of the Bethlehem Lutheran church will meet on Thursday evening at seven o'clock. Any who would like to join the choir will be received at that time.

Missionary Society

The Women's Home and Foreign Missionary society will meet Thursday January 8th, at three o'clock in the church basement. A good attendance is desired.

Bethlehem Ladies Aid

The ladies aid of the Bethlehem Lutheran church will meet on Thursday afternoon in the church parlors. Reports will be heard and election of officers held. Members are asked to come and bring a friend.

Swedish Bethany Aid

The ladies aid society of the Swedish Bethany church will meet tomorrow afternoon with Mrs. Gust Erickson, 713 3rd Ave., N. E. Members are expected to be present and visitors are always welcome.

IN MUNICIPAL COURT

3 Liquor Charges on the Docket Before Judge J. H. Warner

In municipal court E. E. Johnson plead guilty to the sale of intoxicating liquor, and was fined $50 or 40 days in jail.

Gertie Schuety, arraigned on a charge of transporting liquor, plead guilty and was fined $50 or 30 days in jail. Because of the fact that there is no police matron at the city jail, the defendant was committed to the county jail.

Peter Jones, charged with being intoxicated, plead not guilty, and his case will be tried tomorrow.

POULTRY SHOW OPENED TODAY

Carries Largest Exhibit of High Quality Birds in History of Association

KEEN INTEREST BEING SHOWN

Outside Breeders Recognize Importance of the Local Show

The annual Crow Wing County Poultry show opened on Wednesday morning in the Gardner auditorium, with the largest exhibit of high quality birds in the history of the association.

Poultry fanciers throughout the county are taking a more keen interest in the show this year than formerly, accordnig to association officials, and are bringing in a large number of exhibits.

Outside breeders recognize the importance of the local show, and each train is bringing into the city some exceptionally fine specimens of birds of all breeds, with the white leghorn predominating.

Seven pens, comprising 45 single entries arrived from Sauk Rapids last night, the largest single outside exhibit made to date.

Poultry breeders are represented with exhibits from Deer River, Aitkin, Staples, Wadena, Verndale, Sauk Rapids, Anoka and the cities.

Local people are urged to attend this show, which is of a most instructive nature. Thursday will be the last day of the show. There will be poultry institutes held each afternoon, in addition to vaudeville numbers, and radio programs.

Mrs. John Kruse, of Minneapolis, the only licensed woman poultry judge in the United States, will judge the show on Thursday morning, and the awards will be placed in the pens that afternoon.

Junior Young People

The Junior young peoples society will meet on Thursday evening in the church parlors of the Bethlehem Lutheran church. An excellent program has been arranged: Mr. and Mrs. Carl J. Anderson and Rev. and Mrs. O. S. Winther will entertain. All members are urged to be present.

Evangelical Aid

The ladies aid society of the Evangelical church will meet on Thursday afternoon in the church basement, and will be entertained by Mrs. A. Shanks, Mrs. Howard Shanks Mrs. S. Wooden and Mrs. Shepherd. All members are asked to be present and visitors are welcome.

Norwegian-Danish Aid

The ladies aid of the Norwegian-Danish Lutheran church will meet in the social rooms of the church on Thursday afternoon at three o'clock. This is the annual meeting and all members are urged to be present. Mrs. C. N. Olson and Mrs. Ernest Lawrenz will entertain.

Hupmobile 8 has the shortest, most compact eight-in-line engine ever built. 182t3

WOMEN VOTERS BOARD MEETS

Will Formulate Program of Education Looking Towards Legislative Accomplishment

CARD PARTY IN JANUARY

Latter Will be in Charge of Six Ladies of the League

The board of the League of Women Voters met at the Chamber of Commerce parlors on Tuesday afternoon and formulated a program of education looking towards legislative accomplishment.

The next general meeting, however, will be purely social and will be held next week. This is the postponed December meeting which the holiday festivities prevented holding in December. It will probably be a card party, its object being to raise a fund for educational purposes. This will be in charge of the Social Committee consisting of Mesdames Rose Parker, Beise, Butler, Cleary, Adair and Nesmith Nelson.

The January meeting will be held the last week in January and will have speakers on the various pieces of legislation not yet disposed of that the League is backing.

Those present offered to donate ten cents each to purchase pamphlets which contained correct information regarding the federal Child Labor Amendment and have them distributed where they would have the greatest educational value.

Volunteers were called for to attend the Amendment Rally at the Nicollet Hotel in Minneapolis next Saturday, when those favoring the amendment will organize for an educational campaign that will probably bear fruit in 1927 if not in 1925. Mrs. A. C. Weber, Miss Genevieve Flannagan and Mrs. W. C. Cobb may all attend this meeting.

The committee on program for the January meeting are: Miss Mary Walsh, Mrs. A. M. Opsahl, Mrs. A. C. Weber.

Hupmobile 8, an Eight that challenges all eights and all superior sixes. 182t3

JUDGE HALE IN TEXAS

Former Deerwood Man Now Prominently Identified With Oil Company

According to The Mexia Daily News of Mexia, Texas, Judge James T. Hale of Deerwood, for years well known in Minnesota mining circles, is prominently identified with and a director of the Reiter-Foster Oil Corporation, which is to be listed on the New York Curb early this month.

For several years Judge Hale has spent most of his time in the Mid-Continent Oil Fields.

Some local people will remember the young government engineer, W. A. Reiter, who surveyed the central part of Crow Wing county during 1912, the topographical maps of this section resulting from this work. Mr. Reiter, according to the Mexia Daily News, is now a successful oil geologist in the Mid-Continent Field and President of the Reiter-Foster Oil Corporation, which has recently sprung into prominence.

Do You Know—

That Minnesota's bus tax is one of the highest, if not the highest in the United States; that the average tax per bus is more than 30 times the average tax per pleasure car?

6

WOMEN VOTERS BOARD MEETS

Will Formulate Program of Education Looking Towards Legislative Accomplishment

CARD PARTY IN JANUARY

Latter Will be in Charge of Six Ladies of the League

The board of the League of Women Voters met at the Chamber of Commerce parlors on Tuesday afternoon and formulated a program of education looking towards legislative accomplishment.

The next general meeting, however, will be purely social and will be held next week. This is the postponed December meeting which the holiday festivities prevented holding in December. It will probably be a card party, its object being to raise a fund for educational purposes. This will be in charge of the Social Committee consisting of Mesdames Rose Parker, Beise, Butler, Cleary, Adair and Nesmith Nelson.

The January meeting will be held the last week in January and will have speakers on the various pieces of legislation not yet disposed of that the League is backing.

Those present offered to donate ten cents each to purchase pamphlets which contained correct information regarding the federal Child Labor Amendment and have them distributed where they would have the greatest educational value.

Volunteers were called for to attend the Amendment Rally at the Nicollet Hotel in Minneapolis next Saturday, when those favoring the amendment will organize for an educational campaign that will probably bear fruit in 1927 if not in 1925. Mrs. A. C. Weber, Miss Genevieve Flannagan and Mrs. W. C. Cobb may all attend this meeting.

The committee on program for the January meeting are: Miss Mary Walsh, Mrs. A. M. Opsahl, Mrs. A. C. Weber.

Hupmobile 8, an Eight that challenges all eights and all superior sixes. 1823

Graduated Bands of Fur Add Chic to Satin Wrap, Circular Godets Give the Modish Flare to Frock

The wrap shown at the left is of heavy black satin. The frock is of sapphire blue velvet. They were seen at a recent showing of advance models in New York City.

JUDGE HALE IN TEXAS

Former Deerwood Man Now Prominently Identified With Oil Company

According to The Mexia Daily News of Mexia, Texas, Judge James T. Hale of Deerwood, for years well known in Minnesota mining circles, is prominently identified with and a director of the Reiter-Foster Oil Corporation, which is to be listed on the New York Curb early this month.

For several years Judge Hale has spent most of his time in the Mid-Continent Oil Fields.

Some local people will remember the young government engineer, W. A. Reiter, who surveyed the central part of Crow Wing county during 1912, the topographical maps of this section resulting from this work. Mr. Reiter, according to the Mexia Daily News, is now a successful oil geologist in the Mid-Continent Field and President of the Reiter-Foster Oil Corporation, which has recently sprung into prominence.

DODGE BROTHERS TYPE-B SEDAN

Unquestionably, the most compelling tribute to the car's stamina is its widespread use by farmers, ranchmen, surveyors, salesmen and others who travel isolated roads in all sorts of weather.

These men will tell you that a good polishing restores the durable finish to its original brightness after the car has been caked with mud for weeks.

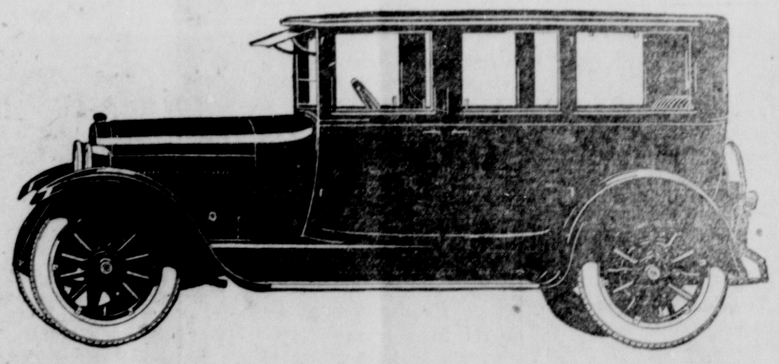

To them it is a matter of vital importance, too, that Dodge Brothers powerful starter functions promptly after prolonged exposure to the cold.

Nor is any group of owners more constantly impressed by those elements of excess value which characterize not only the Type-B Sedan itself, but every car that Dodge Brothers build.

The price is $1095 f. o. b. Detroit—$1240 delivered

STATE LAW ON USE OF THE FLAG

ADOPTION of the American Legion flag code as a pattern for decorating public buildings on all occasions when the national colors are used is provided in a bill which the American Legion is fostering at this session of the legislature.

The proposed bill also provides that the Legion's flag code be taught in all of the schools. The Legion is also advocating other legislation, and this includes that alien teachers shall be prohibited from serving in any elementary school in Minnesota and that it shall be unlawful for departments of education or school districts to pay any such teachers.

Other legislation sought is an amendment to the rural credits law to extend greater benefits to former servicemen; forest conservation; a boxing bill extending legalized fights to many cities, whereas now only St. Paul, Minneapolis and Duluth regularly enjoy such privileges; a soldiers' peddler law; a guardianship officer, authorizing probate courts to commit insane veterans direct to the Veterans' Bureau hospital in Minneapolis, and placing surplus cash of the soldiers' bonus fund in the soldiers' welfare fund.

FAIRMONT FARMERS FIRE TRUCK

FAIRMONT farmers may safely be classed as among the most progressive in the state. They have bought a fire truck and are now engaged in practice work to gain the efficiency necessary to douse any neighborhood fires.

The practice program is reported to include trial runs to corn cribs; dropping milk cans and boarding the running board; stopping the milking machine or cream separator and starting the fire truck; connecting a hose line with the wind mill pumping station.

The truck is well greased up, the tires are pumped full, the tank carries ten gallons of gasoline, and the farmers, metaphorically speaking, are champing at the bit and prancing in the stall, waiting for the first fire gong calling them into action.

HOMES VITAL TO FUTURE OF U. S.

To encourage and facilitate home building, reduce needless burdens in household operations, raise standards, not only of the home but of the community and the nation is a task of profound importance for the welfare of America, declares Secretary of Commerce Hoover, president of Better Homes in America, in an opening statement concerning Better Homes Week demonstrations for 1925, which will be held May 10th to 17th.

"It is in the home," says Mr. Hoover, "that character and high ideals are best developed." The right kind of home-life is the foundation of the republic.

PROTECTING AMERICAN LABOR

PRESIDENT COOLIDGE has well said: "I should like to see administrative features of the immigration law rendered a little more humane for the purpose of permitting those already here a greater latitude in securing admission of members of their own families."

"But I believe this law in principle is necessary and sound, and destined to increase greatly the public welfare. We must maintain our own economic position, we must defend our own national integrity."

OUT in Lead, S. D., a painter daubed a pine door of P. A. Gushurst, pioneer merchant, and with it went all the data inscribed thereon by old timers including such things as a record of storms, hottest and coldest days, deaths of prominent people, Indian raids, etc. The same thing happened in Brainerd at the Cochran & Hess barber shop when the senior partner lived. John Cochran kept accurate record of the weather, duck flights, hunting records, etc., on a door frame and they remained there for ready reference until the bathroom was coated two coats of white enamel, effectually obliterating the records.

A NEW inspector has made his appearance on the payroll of the taxpayers—he is the bee inspector who visited Thief River Falls recently, says the Red Lake Falls Gazette. Along with this we learn that Thief River Falls has a deputy bee inspector. We presume the duties of these bee inspectors is to inspect the bees' knees, so that the knock-kneed and the bow-legged bees may be kpt in separate swarms.

MRS. HELEN KELLER, 19, "long distance telephone bride," has been granted a divorce. She "got her party" all right (that is, her husband), 4,000 miles of telephone bridging the gap between her husband in Bremerton, Wash., and the bride in Fort Worth, Texas, and permitting the ceremony to be telephoned. But it seems that since the ceremony there has been line trouble.

SLEEPY EYE is sleepy no longer. Every girl now has her eye open for a "kiss burglar." The latter is most gentlemanly and in one instance carried a girl's suitcase from the depot to her home and at the door he asked for a kiss. The girl screamed in horror at the very thought of such a thing and the bold alleged "kiss" burglar fled through the gloom.

SOME people just can't keep quiet. When they are told to cultivate repose, they find that it takes a whole lot of energy to keep quiet. The bodies of children and the minds of adults keep immobile only by conscious and continuous effort. If you want to see perfect repose, watch a cat taking its nap.

A WAY to stop the hiccoughs has been found. The postmaster of Fairmont, who is a man, coughed three days steady and then doctors put a tape line around his waist, heaved on her and the hiccoughs stopped.

SOMEBODY hit the balmy climate of California another whack and now it's the models that pose in the nude in the art studios. They protest that they will die of the cold unless the Art Institute is artificially heated.

FORMER GOVERNOR PREUS is to be the Major Britton of Minneapolis.

Red Light Easily Best for Signaling Purposes

It is ascertained from the bureau of standards, in the Department of Commerce, that the red light leads all the rest for signaling purposes, its visibility far outranging lights of any other color. A grasp of the truth now scientifically demonstrated of course accounts for the selection of red in the railroad service, on the highway and in theaters for the "danger" light. Its use in theaters and public halls where it might suddenly become necessary for a crowd of people to seek safety through emergency exits, has been criticized on the ground that green, not red, is the "safety" light. But there is common understanding of the meaning of the red light when it marks a fire-exit, and the use of it to guide a panicky assemblage to safety is justified, inasmuch as for catching the eye there is no color so effective as red.

No departure from long customary traffic practice is to be expected as a consequence of the intensive study of signal lights, which the bureau of standards is making in co-operation with the national safety council, the railroads and highway organizations, although some difference in the shades of the colors now in use may be recommended. Green is scientifically proved to be a far second to red in visibility, yellow and blue following in order, concludes the Providence Journal.

Man Long Has Sought Dominion of the Air

The desire to conquer the air and emulate the birds is no modern fancy, but has agitated the minds of men mechanically inclined for ages. Records of a meeting of the Royal society, held in London, England, in 1679, give the information that "Mr. Hooke read a paper containing a description of the way of flying, invented and practiced by one M. Besnier, a smith, the contrivance of which consisted in ordering four wings folding and shutting to be moved by his hands before and his legs behind, by which he was, it was said, able to fly from a high place across a river to a pretty distance," the Montreal Star says. One of the members of the Royal society apparently cast some doubts upon the practicability of the invention. "Mr. Henshawe conceived that by reason of the weakness of a man's arms for such kind of motions, it would be much more probable to make a chariot or such like machine with springs and wheels, that should serve to carry one or more men in it to act and guide it."

Ivy Not Harmful

Ivy on the walls does not make a house damp. The leaves of the ivy act as tiny umbrellas to deflect much of the rain from the wall. Of that which reaches the wall, some would be absorbed by the rootlets of the ivy, so the net result would be to keep the wall dried. While it is true the ivy might prevent some of the water absorbed by the wall from evaporating quickly, yet this effect would be very small compared with the quantity of water screened off. A fair growth of ivy on sound walls that afford no entrance beyond the superficial attachment of the rootlets, or claspers, is very beneficial, as it promotes dryness and warmth and reduces to a minimum the corrosive action of the atmosphere.

Buttons Denote Rank

A button is worn on the headgear of Chinese officials, both civil and military, as a badge of rank. There are nine ranks, the first and highest being distinguished by a transparent red (ruby) button; the second by opaque red (coral); the third by transparent blue (sapphire); the fourth by opaque (lapis lazuli); the fifth by transparent white (crystal); the sixth by opaque white; the seventh by plain gold; the eighth by worked gold, and the ninth by plain gold with a certain character engraved upon it.

Bold Forgeries

The name "Ireland Forgeries" is given to certain Shakesperean autographs, private letters and plays, which a youth named Ireland claimed to have discovered, but which he had in reality forged. One of the plays, called "Vortigern," was produced at the Drury Lane theater, April 2, 1796, but proved to be a vapid and senseless production. Ireland soon after acknowledged the forgery and published his "Confessions" in 1805.—Kansas City Star.

Didn't Exhibit Themselves

The old gentleman was very fond of golf, but his play seemed to get worse and worse.

Finally, after missing the ball every time, he turned to his patient caddie and remarked: "Dear, dear! There can't possibly be worse players than myself."

"Well, perhaps there may be worse players," said the boy consolingly, "but of course they don't play!"

Color Blindness Permanent

Color blindness is not curable, and sometimes exists in eyes that are otherwise normal. It is found in 3 to 4 per cent of men and less than 1 per cent of women. It is particularly important that railway and marine employees do not have this defect, since the safety of the traveling public depends in a large measure upon the accuracy with which red and green signals are observed.

Served Turn Only as Symbols of Kindness

Mr. Smith, writes a contributor to the Youth's Companion, had made a particularly good catch of black bass. Mrs. Smith picked out a nice big one and sent one of the boys with it over to their neighbors in the adjoining camp. "We won't bother to clean it for them," she said, "because that big boy of theirs can do it just as well as we can."

A few days later the grateful neighbor, not to be outdone, returned the favor by bringing across to the Smith's back door a nice juicy raspberry pie freshly made from the wild raspberries growing in the woods behind the camps. That day the storekeeper across the lake had his weekly shipment of ice cream from the city, and none of the Smiths felt much like eating pie. The next day they all went on a trip down the stream, and the third day when the pie was served it had become so soft and soggy that everyone refused to touch it. Wrapping it up carefully in a newspaper, so that no one should see it, Mrs. Smith gave it to young Tom and asked him to take it out in the woods and bury it.

The next morning Mr. Smith went out to dig worms for his day's fishing. As he turned up the moist brown earth there, lying side by side, symbols of neighborly kindness, were the black bass and the raspberry pie!

New Microscopes That Have Marvelous Power

The great world of little things revealed by the microscope is about to become greater still, for new instruments have been invented which have enormously increased the magnifying power which is at man's command. News of a new microscope which will magnify an object over 600,000,000 times, or 25,000 diameters, has lately come from two sources at once. One such instrument has been invented by Doctor Siedentopf of the famous Zeiss firm of Jena; another, capable of giving even greater magnification, has been perfected by N. D. Chopra, a British metallurgist, who has already solved with it the problem of avoiding corrosion in tram rails, a discovery which will save enormous sums of money in all countries.

A good microscope of moderate power will magnify an object about 600 diameters, or 360,000 times in square measure. Such a magnification as this is difficult to imagine, but some idea of the power of the new instruments may be gathered from the fact that a tennis ball, if it could be viewed through them, would appear about one and a half miles in diameter.—My Magazine, London.

Musician's Fine Memory

It is doubtful if there has ever been any one in the whole history of the art whose musical memory was so marvelous as Mendelssohn's. We are told (says a writer in John o' London's Weekly) that he hardly ever needed a score on any occasion whatever and it is authentically recorded of him that shortly before his death he played through from memory the whole of Beethoven's "Ninth Symphony"—a truly prodigious feat.

Another well-attested anecdote of Mendelssohn tells how on one occasion when he was rehearsing without score a chorus from Bach's "Matthew Passion" he called out at a certain point: "Please note that at the twenty-third bar the sopranos have C and not C sharp."

All Ages Have Suffered

How often do we hear old people say that the world is less healthy now than it was in their "young days," when most of the diseases which our doctors are fighting seemed to be quite unknown.

These aged pessimists will get rather a shock as the result of discoveries which have just been made at Solutre, near Macon, London Tit-Bits says.

Fifteen skeletons, some of them fifteen to twenty thousand years old, have been found, and many of these show that our modern maladies are by no means so new as our grandfathers imagine. Primitive man, for instance, seems to have suffered just as much from rheumatism, tuberculosis and dental troubles as do his descendants.

Inconvenient "Currency"

Economists tell learnedly why money makes the commercial world go round, but a Parisian opera singer of a decade ago learned the lesson in one classic experience. She was determined to tour the world thoroughly and she stopped over in the Society islands, where her manager contracted to have her sing for one-third the receipts. Her share of "the box office" was 3 pigs, 22 turkeys, 44 chickens, 5,000 cocoanuts and an uncomputed quantity of bananas and oranges. She couldn't convert her proceeds; the natives had no money. She fed the fruit to the animals and donated her barnyard to the community when she sailed away.

Production of Tea

The tea plant is cultivated in two varieties in China—Thea bohea and thea varides in the provinces of Kwang-Tung, Fu-Kien and Che-Kiang. The tea plantations are usually formed in a deep rich loam, never on low lands, but on low hilly slopes. The leaves are gathered three times, in the middle of April, in the beginning of May and when the leaves again are nearly formed. The first gathering yields the finest and most delicate tea, but with considerable injury to the plant.

HAROLD LLOYD in Hot Water

HOOKED---AL LAST!

Good heavens! How had it all happened? Here he was holding in his arms the most exquisite creature his eyes had ever beheld—all pink and white and alluring! Holding her for only a brief, fleeting moment! And then like a bolt of lightning came the devastating realization that he, the cynical, bragging, scoffing, unconquerable bachelor had at last been conquered!

His heart told him he was in heaven! His head told him to drop her and run, run! But did he? He did not! HE COULD NOT!

And then things began to happen!

You know Harold Lloyd. You know what he can do with comedy. Don't ask us to tell you. We haven't the heart. And we couldn't find words to do it if we wanted too! Go and see for yourself!

YOU'LL HAVE THE MOST RIOTOUS TIME OF YOUR LIFE!

GET RID OF THAT BACKACHE!

Brainerd People Point the Way

The constant aching of a bad back,
The weariness, the tired feeling;
Headaches, dizziness, nervousness,
Distressing urinary disorders—
Are often signs of failing kidneys
And too serious to be neglected.
Get rid of these troubles!
Use Doan's Pills—a stimulant diuretic to the kidneys.
Hosts of people recommend Doan's.
This is a Brainerd case.
You can verify it.

Mrs. J. R. Mutch, 618 5th St., says: "I had a steady dull bearing down feeling in my back and when I stooped severe pains darted across my kidneys. My back was so sore and stiff it seemed it would break if I stopped. I became tired and completely run down. A friend suggested Doan's Pills so I bought some at Dunn's Drug Store. Doan's gave me wonderful relief."

LATE MINING NEWS OF THE CUYUNA RANGE

Winston & Dear have started stripping the Evergreen property which lies north and between Crosby and Ironton. It includes the Charles Oberg homestead. Stripping operations are expected to continue for a period of two and a half years.

Butler Brothers are reported to have moved in their equipment preparatory to stripping the Cuyuna-Mille Lacs property on Mahnomen lake, northwest of Ironton.

The Meacham underground mine are now about back to normal output. They are stockpiling.

The Kennedy mine of Pickands-Mather company has not been mined for several months, but it is expected that the state lease under Rabbit lake may afford the company large operations in the near future.

"Supplice"

The meaning of the word supplice is "punishment; torture; pain and torment." As far back as 1656 the word was used by Blount to express the same meaning. There is also a passage in one of Mrs. Oliphant's works which reads: "It is easier to play the victim under the supplice inflicted by a pretty girl, than by two mature matrons."—Literary Digest.

GOD'S WORD

Its Infallibility Stressed by Evangelist Armin Holzer

The infallibility of the word of God was the subject of the Rev. Armin A. Holzer who is conducting the Bible Conference at the Full Gospel church on Kindred street. The church auditorium was filled with a truly representative audience to hear the Evangelist.

His text was taken from the 19th Psalm the 8th verse. "The Statutes of the Lord are right." Old books—the Evangelist said—go out of date. They have a time to be born, they grow in strength. They have their middle age of usefulness, they grow old and they die. But not the Bible. It never gets out of date but is always a little ahead of its time.

Some of the epigramic statements Rev. Holzer made are well worth while remembering. "You do not love God any more then you love God's Book." Your children will not thank you in Eternity for the amount of money you have left them but they will either bless or curse your memory because of the attitude you have taken to the Bible and have taught them to do likewise."

Again he related an experience when once lecturing somewhere in the States a fine and highly educated Jewish young man came up to him and said: "I am somewhat surprised Mr. Holzer that an intelligent man like you can still believe in the existence of God." "I am so glad to meet you," Holzer replied "for I have read of you before, I met you." "Where did you read about me," the young man inquired. "Why in the Psalms where the informer informs me that "the fool hath said in his heart there is no God."

Fools of our time have grown in folly. For in Bible times they only said it in their hearts and today they blubber it out with their lips. The Bible will be able to comfort us after father and mother and friends are all dead and gone. Friends can accompany us till to the grave but God's word goes with us through the valley of the shadow of dead. There were few eyes dry last night and many came forward resolving to give the Bible a larger place in their life.

Tonight Rev. Holzer will speak on "The Broken Down Altars in Brainerd Homes and Churches." The class for divine healing is growing and many are benefited by these Bible teachings for the body. A great program for the rest of the sessions of the Conference has been prepared. A fine delegation came last night from Pillager where Evangelist Holzer just closed a most successful campaign.

THE VERY NEWEST IN SMART STYLES

FAIR HEDDA HOYT DESCRIBES SATAN'S EYE FOR STYLE

EARRINGS COMING IN STYLE AGAIN FOR EVENING WEAR

By HEDDA HOYT
(Fashion Editor of the United Press)
(Written for the United Press)

New York, N. Y., Jan. 7.—When Satan added a bright red tail to his red flannels to give a bit of dash to his "toute ensemble" some of his admirers thought he had gone a bit too far. But not Satan! He added a couple of horns to his head and called it a day. And ever since that time mankind has been interested in head ornaments. While some savages still prefer horns to other types of ornamentations, the ladies mentioned in the social columns prefer more glittering jewels.

Just now we are changing from head bandeaux of leaves to more individual arrangements of flowers. Both real or imitation flowers may be worn and some of the favorites are the red rose, the cluster of carnations, the orchid, the gardenia and the poinsceta. Usually the single flower is worn at one side of the bobbed hair and some women wear the red rose pinned low in the hair, so that it falls on the neck "a la Carmen.' Several younger girls are wearing sprays of little pink moss roses coiled so as to form a circle at one side of the head. This is very youthful and becoming to the blond type of beauty who goes in for pastel shades in evening gowns.

Matrons still prefer the bandeau to the floral head decoration and they are choosing flat types which are made of brilliants and are wearing them well over the forehead. Leaf wreaths are not worn at all by smart women this season. A few younger misses contort wreaths into rosettes which they wear on the side of the head.

* * *

Earrings are coming in style again for evening wear. Paris has gone mad over the pendant type of earring and one already sees the vogue spreading in America. Earrings can be ever so smart on the bobbed head if one but chooses them correctly. Nearly all dainty pendant types are preferable to heavy Oriental ones which demand a more Grecian type of hair-do.

* * *

The only bar that is much in evidence in New York is the bar-pin. It has been some time since we considered the bar-pin seriously, as they went out of style with the shirtwaist and separate blouse. Today's bar-pin, however, is not to be sniffed at. It is the smartest thing one can wear in the way of evening accessory and it is pinned on the left shoulder of the gown in vertical fashion.

Some of these pins are so large that they look like fobs hanging from the shoulder. Almost invariably they are of glittering rhinestones set in silver so deftly that they resemble real diamonds set in platinum. All department stores are carrying them and the better ones have small stones rather than large ones and are chosen for their detail of design. Most of those worn with the dinner or dance frock are from one-half inch to an inch in width and from three to four inches long.

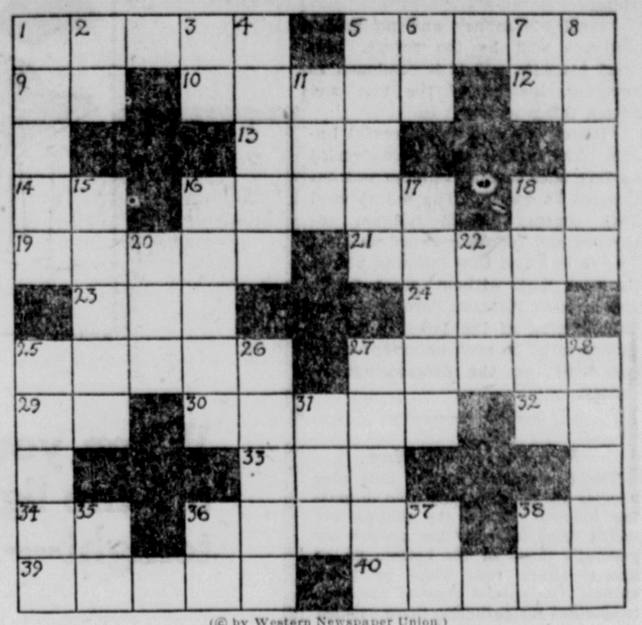

* * *

Consider the modest violet! It is ousting the orchid and threatening to become the favorite corsage, both for day wear and evening wear. Bunches of Parma violets, real or imitation, usually without leaves, are worn on the fur wrap. For eveningtime they are sprinkled with diamond dust and worn on the shoulder. Another favorite evening corsage which, of course, is worn on the shoulder, is the large water lily. Its petals are also outlined in diamond dust.

Still another new type of shoulder decoration is the bow-knot of velvet, which may or may not match the frock in color. When one thinks of the corsage this season one naturally thinks of the left shoulder, but it remained to a little New York debby to start a new manner of wearing the corsage. Recently she has appeared at the opera wearing long white kid gloves, which by the way, are gradually slipping back into style, and at the wrist of the right glove she wears a bright red rose, the stem of which passes through two little slits in the kid made for that purpose. Just how soon other debutantes will begin using the safety razor on their gloves is a matter of conjection.

Jacob's coat of many colors wouldn't have a chance with Mrs. Jacob's coat this season. Not that hers would out-rival the color scheme of the Biblical coat, but she wears hers with a dash that poor old Jacob never heard of. If one were to select the smartest evening wrap of the season, barring ermine, one would select a black velvet cape lined with silver metal cloth and collared with silver. Some of the newest capes using such materials are made with silver lame, forming the entire upper portion and ending just below the normal waistline, the remainder of the wrap being black velvet. Linings may either be of silver or of bright green or red.

FEDERAL ROAD AID TIE UP THREATENS

MINNESOTA CANNOT MATCH GOVERNMENT GIFT FOR HIGHWAYS

Minnesota will lack nearly $2,000,000 of the amount necessary to obtain a like amount of 1925 federal aid and its auto tax payers will lose the use of nearly $4,000,000 of needed highway improvements, if trunk highway income is not increased or provisions made for advances of working capital this year.

Figures in a highway bulletin this week indicates that the good roads program may be crippled as a result. Federal highway aid to encourage states to continue good roads work is conditioned on a requirement that each dollar of government money be matched with a dollar or more of state money. Minnesota will be unable to meet the requirement this year if limited to funds now in sight.

Annual outlays on trunk highways to date under the new program have averaged $3,315,822 for maintenance and administration, $2,092,780 for sinking fund and like items and $10,841,853 for new construction or betterments. About $8,000,000 of the last amount each year has been made up of county bond advances.

Assuming that deductions for junked cars and the 10 per cent depreciation allowance will practically offset any increase in registrations, and that reduction of motor vehicle taxes will net from a gasoline tax only an extra $500,000 from tourists, the bulletin points out that 1925 receipts from those sources will total will total about $9,000,000. Of that amount, maintenance will take about $4,000,000 and the sinking fund and like items about $4,500,000. Then, it adds, but $500,000 will be available to put against $2,100,000 of federal aid. The result will be loss of nearly $4,000,000 of highway betterments this year.

With the gasoline tax added and proposed bonds authorized, however, the bulletin shows, maintenance outlays will be reduced to $3,150,000 a year but the sinking fund total must be raised to $5,500,000. Yet there will be left about $15,000,000 for new improvements and ample funds to take advantage of the government aid.

Further, the bulletin adds, outlays on the trunk highways will be less than those on county and township roads which serve only a fourth as many road users.

Cost of Stamp Production

To supply the nation with its yearly output of postage stamps, more than 50 acres of spruce trees are needed. Ink, paper and gum, besides, are required, so that one million dollars' worth of supplies goes through the stamp machines every day.

LOST AND FOUND—CALL 74

DRINK WATER IF KIDNEYS BOTHER

Take a Tablespoonful of Salts if Back Pains or Bladder is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

—Advt.

Harold Lloyd's Latest Pathe Comedy is a Riot

They came, they saw and they were conquered, captivated and sent into hysterics. The time was last evening, the place was the New Park Theatre, and the reason for all this excitement, was the opening of Harold Lloyd's latest feature Pathe-comedy, "Hot Water." Mere words cannot express the extent of the outburst that greeted the spectacled comedian's latest triumph. The audience did a great deal more than laugh. They shrieked, roared, howled and yelled. Anyone, not acquainted with the mirth-producing ability of Mr. Lloyd, would have thought that a free-for-all fight was taking place inside the theatre. This great picture will be shown again tonight and Thursday.

But, as usual, Lloyd's side-splitting situations are very original and not at all like anything that he has done before. The story opens, showing Harold as a happy-go-lucky bachelor who would no more think of marrying, than he would think of starting out for the North Pole in a pair of pajamas. It isn't long before Nemesis appears on the scene, in the person of little Jobyna Ralston, she of the dreamy eyes and a very kissable mouth. Events take their natural course and Harold finds himself trying, unsuccessfully, to prove that two can live as cheaply as one. And, to add to his many troubles, his wife's family are continually offering a lot of unsolicited advice as to how he should manage his personal affairs.

"Hoot" Millionaire Cowboy in New Role

A good cowboy gone wrong offers a tonic of laughter in "Broadway or Bust," Universal's latest Hoot Gibson release, which comes to the Lyceum Theatre Thursday and Friday. Gibson is introduced as a poverty

SCENE FROM "BROADWAY OR BUST" A UNIVERSAL PRODUCTION Starring HOOT GIBSON

and love stricken cowboy. His girl jilts him because an inheritance of wealth elevates her thoughts of romance to a field of a more fashionable clothed strata. Later, the cowboy has a chance to return his sweetheart's hightoned tactics by snubbing her, when his own financial ship comes in, in New York society. They patch up their quarrel before the final fadeout, but the path of their romance is strewn with laughs and a bit of adventure.

Great Dog Picture at the Lyceum

A treat is in store for all those who patronize the Lyceum Theatre tonight, where "The Silent Accuser," the new Metro-Goldwyn production, has its last showings. A new dog star, Peter the Great, gives a remarkable performance, changing in an instant, from a gentle animal into a snarling, fighting beast. The feature players include the popular Eleanor Boardman, Raymond McKee and Karl Metcalfe.

The story, which tells of a dog's rescue of his master from the punishment incurred by another, has been translated to the screen in a most convincing manner by Chester M. Franklin, who, with assistant director Frank O'Connor, prepared the scenario from Jack Boyle's story.

On the Nation's Business

A SLEET storm snaps wires in New England; a blizzard fells a line of poles in the Western ranges; a flood overwhelms a valley community; a prairie cyclone sweeps away everything in its path;—wherever the emergency, men and materials are rushed to the spot in order that telephone service, vitally important at such a time, may be restored.

And the mending of every break restores to telephone users, everywhere in America, a particular path for the passage of his voice. Whether sudden calamity comes from an Atlantic gale or a Texas "twister," its damage must be repaired at once, because it cripples some part of a communications system that is nation-wide.

Because America has universal service, the telephone truck speeding to a scene of disaster is truly "on the nation's business," and the implements of its workers are weapons wielded in the nation's cause.

DISTRICT COURT PROCEEDINGS

George Shanks Sentenced to Indeterminate Term at Stillwater

OLE RODMAN TO ENTER PLEA

Case of State Against Paul Donahue Goes to the Jury in Afternoon

George Shanks, who confessed and plead guilty in district court of robbery in the third degree, was sentenced to an indeterminate term at the state prison at Stillwater.

The defendant was brought before the court on Wednesday morning, and after being examined was sentenced as follows: "It is considered and adjudged that you, George Edgar Shanks, as punishment for the crime of robbery in the third degree, of which you have been duly convicted upon your plea of guilty, be and you are hereby sentenced to the state prison at Stillwater, at hard labor, until discharged by due process of law."

Snanks plead guilty to entering the home of John Hedstrom in Northeast Brainerd, and taking from Mr. Hedstrom $5.50, after knocking him down and otherwise abusing him.

Ole Rodman, charged with Shanks in this offense, was also before the court on Wednesday, with his attorney, W. H. Crowell, and requested further time in which to make his plea. A continuance was granted until this evening at five o'clock.

In the case of the state against Ralph I. Denton, indicted by the grand jury with abandonment of his three-year old daughter, was before the court and S. F. Alderman was appointed his counsel.

The case of the state against Paul Donahue, charged with taking an Essex car from S. H. Schnell, in Superior, Wisconsin, on July 17th, was brought to a close and given to the jury late this afternoon.

At the close of the state's testimony in this case, the defense moved that the action be dismissed upon the grounds that the state had failed to establish a cause of action. This motion was denied.

The defense, in its testimony called as witnesses, Celia Gilrane, companion of Donahue's, Hazel Lofkin, Harry Schapny and Julius Paul. Donahue took the stand in his own behalf.

It was brought out in the state's testimony that the Essex car, valued at $700, was stolen on the evening of July 17th, in Superior, and that it was next seen at the Adams cottage, at Bay lake, on August 15th, where it was attached to a small home electric lighting plant and furnishing light for the cottage.

Donahue, "Tip" O'Neil, whose real name is John W. Stearns, and who was convicted in Minneapolis some time ago, with other companions were occupying the Adams cottage in August.

Exibits produced by the state included "doctored" automobile license plates, said to have been used on the Essex car, and other license plates used on the car when it was driven to Brainerd on one occassion, a sawed-off shotgun, found by sheriff's officers in the grass near the cottage, two revolvers with their holsters, and merchandise, said to have been taken from the store of Max Ruttger, at Bay lake.

Never before such an Eight at such a price. 18213

Bethlehem Lutheran Church

The annual meeting of the Bethlehem Lutheran church will be held on Monday evening, January 12th, at 7:45 o'clock.

Bethlehem Junior Choir

The Junior choir of the Bethlehem Lutheran church will meet on Thursday evening at seven o'clock. Any who would like to join the choir will be received at that time.

Missionary Society

The Women's Home and Foreign Missionary society will meet Thursday January 8th, at three o'clock in the church basement. A good attendance is desired.

Bethlehem Ladies Aid

The ladies aid of the Bethlehem Lutheran church will meet on Thursday afternoon in the church parlors. Reports will be heard and election of officers held. Members are asked to come and bring a friend.

Swedish Bethany Aid

The ladies aid society of the Swedish Bethany church will meet tomorrow afternoon with Mrs. Gust Erickson, 713 3rd Ave., N. E. Members are expected to be present and visitors are always welcome.

IN MUNICIPAL COURT

3 Liquor Charges on the Docket Before Judge J. H. Warner

In municipal court E. E. Johnson plead guilty to the sale of intoxicating liquor, and was fined $50 or 40 days in jail.

Gertie Schuety, arraigned on a charge of transporting liquor, plead guilty and was fined $50 or 30 days in jail. Because of the fact that there is no police matron at the city jail, the defendant was committed to the county jail.

Peter Jones, charged with being intoxicated, plead not guilty, and his case will be tried tomorrow.

POULTRY SHOW OPENED TODAY

Carries Largest Exhibit of High Quality Birds in History of Association

KEEN INTEREST BEING SHOWN

Outside Breeders Recognize Importance of the Local Show

The annual Crow Wing County Poultry show opened on Wednesday morning in the Gardner auditorium, with the largest exhibit of high quality birds in the history of the association.

Poultry fanciers throughout the county are taking a more keen interest in the show this year than formerly, accordnig to association officials, and are bringing in a large number of exhibits.

Outside breeders recognize the importance of the local show, and each train is bringing into the city some exceptionally fine specimens of birds of all breeds, with the white leghorn predominating.

Seven pens, comprising 45 single entries arrived from Sauk Rapids last night, the largest single outside exhibit made to date.

Poultry breeders are represented with exhibits from Deer River, Aitkin, Staples, Wadena, Verndale, Sauk Rapids, Anoka and the cities.

Local people are urged to attend this show, which is of a most instructive nature. Thursday will be the last day of the show. There will be poultry institutes held each afternoon, in addition to vaudeville numbers, and radio programs.

Mrs. John Kruse, of Minneapolis, the only licensed woman poultry judge in the United States, will judge the show on Thursday morning, and the awards will be placed in the pens that afternoon.

Junior Young People

The Junior young peoples society will meet on Thursday evening in the church parlors of the Bethlehem Lutheran church. An excellent program has been arranged: Mr. and Mrs. Carl J. Anderson and Rev. and Mrs. O. S. Winther will entertain. All members are urged to be present.

Evangelical Aid

The ladies aid society of the Evangelical church will meet on Thursday afternoon in the church basement, and will be entertained by Mrs. A. Shanks, Mrs. Howard Shank, Mrs. S. Wooden and Mrs. Shepherd. All members are asked to be present and visitors are welcome.

Norwegian-Danish Aid

The ladies aid of the Norwegian-Danish Lutheran church will meet in the social rooms of the church on Thursday afternoon at three o'clock. This is the annual meeting and all members are urged to be present. Mrs. C. N. Olson and Mrs. Ernest Lawrenz will entertain.

Hupmobile 8 has the shortest, most compact eight-in-line engine ever built. 18213

Card of Thanks

We wish to express our heartfelt thanks to our many friends for their expressions of sympathy during the recent illness and death of Mrs. Jennie Borden.

Mr. and Mrs. Thomas Russell, and family.

WOMEN VOTERS BOARD MEETS

Will Formulate Program of Education Looking Towards Legislative Accomplishment

CARD PARTY IN JANUARY

Latter Will be in Charge of Six Ladies of the League

The board of the League of Women Voters met at the Chamber of Commerce parlors on Tuesday afternoon and formulated a program of education looking towards legislative accomplishment.

The next general meeting, however, will be purely social and will be held next week. This is the postponed December meeting which the holiday festivities prevented holding in December. It will probably be a card party, its object being to raise a fund for educational purposes. This will be in charge of the Social Committee consisting of Mesdames Rose Parker, Beise, Butler, Cleary, Adair and Nesmith Nelson.

The January meeting will be held the last week in January and will have speakers on the various pieces of legislation not yet disposed of that the League is backing.

Those present offered to donate ten cents each to purchase pamphlets which contained correct information regarding the federal Child Labor Amendment and have them distributed where they would have the greatest educational value.

Volunteers were called for to attend the Amendment Rally at the Nicollet Hotel in Minneapolis next Saturday, when those favoring the amendment will organize for an educational campaign that will probably bear fruit in 1927 if not in 1925. Mrs. A. C. Weber, Miss Genevieve Flannagan and Mrs. W. C. Cobb may all attend this meeting.

The committee on program for the January meeting are: Miss Mary Walsh, Mrs. A. M. Opsahl, Mrs. A. C. Weber.

The wrap shown at the left is of heavy black satin. The frock is of sapphire blue velvet. They were seen at a recent showing of advance models in New York City.

JUDGE HALE IN TEXAS

Former Deerwood Man Now Prominently Identified With Oil Company

According to The Mexia Daily News of Mexia, Texas, Judge James T. Hale of Deerwood, for years well known in Minnesota mining circles, is prominently identified with and a director of the Reiter-Foster Oil Corporation, which is to be listed on the New York Curb early this month.

For several years Judge Hale has spent most of his time in the Mid-Continent Oil Fields.

Some local people will remember the young government engineer, W. A. Reiter, who surveyed the central part of Crow Wing county during 1912, the topographical maps of this section resulting from this work. Mr. Reiter, according to the Mexia Daily News, is now a successful oil geologist in the Mid-Continent Field and President of the Reiter-Foster Oil Corporation, which has recently sprung into prominence.

INSTRUCTION OF APPRENTICES IS OF VITAL IMPORTANCE

TYPOGRAPHICAL UNION OFFERS PRACTICAL COURSE FOR THE COMING GENERATION

ELEVATION OF CRAFTSMANSHIP NECESSARY FOR FUTURE WELFARE OF UNION

Indianapolis, Ind., Jan. 7.—Inauguration of a new correspondence course in the printing arts, under direction of a newly organized bureau of education of the International Typographical Union, took place January 1, according to an announcement by James M. Lynch, president of the union.

The instruction covers a wider field than was covered by the course until recently conducted from the union's educational quarters in New York City. The new bureau occupies quarters in the international offices here. John H. Chambers of Dayton, O., is the new director of the educational bureau, the teaching staff of which has been enlarged.

Energy and resources of the union will be devoted to extending work of the educational bureau as rapidly as is practical, Mr. Lynch said.

"The newly installed executive council looks upon apprentice training as of vital importance," said Mr. Lynch. "The I. T. U. protective and beneficial institutions, such as the Union Printers Home at Colorado Springs, Colo. mortuary benefit and old age pension have accomplished much in strengthening the organization, but future welfare of the union requires elevation of craftsmanship and sound education of succeeding generations of printers.

"Employers do not object to paying good wages to good printers, but they will complain against good wages for incompetent men. The same applies in any other trade. It is our ambition to light the way for other trades in this problem of education."

Under bylaws of the Typographical Union passage of the course in printing by apprentices is compulsory. They are required to begin their educational work in the third year of their five-year apprenticeship and the work must be completed before they are admitted to membership. The new bureau will provide adequate methods for checking up the progress of each apprentice in his studies and for determining if he has profited by his studies.

In addition to the merely technical operations of the printing craft, the course will carry instruction in English, punctuation, art in its relation to printing, and in advertising composition. The policy of permitting the student to elect subjects, not included in fundamental course, will be pursued.

"Instructors will endeavor to engage the interest of each student by offering individual attention to his needs and by writing personal letters," said Mr. Chambers. "Whenever possible, too, a 'big brother,' for the apprentice will be selected from the printers in the shop where the lad is employed. The 'big brother' will be in correspondence with the bureau and will be advised of the student's progress and of his difficulties from time to time.

"Apprenticeship committees are maintained by local unions and are charged with responsibility for welfare of apprentices. These committees will be provided with all information needed for encouraging progress in studies, and will be expected to see that each apprentice begins the course at the proper time and that he completes it satisfactorily before his admission to the rank of journeyman. While the course is designed for beginners, educational work will be provided also for journeymen, who wish to perfect themselves in advanced phases of the printing art."

Test questions for use in examination of apprentices by local committees will be supplied by the bureau here.

Girl Who Survives 12 Mile Ride on Cowcatcher, and Baby Hurled 50 Feet Unhurt in Auto Smash

Five members of the Clark family were in an automobile that was struck at an Indianapolis grade-crossing. Mrs. Mary Clark was caught on the pilot of the engine and clung there for 12 miles in zero weather. When her benumbed fingers could cling to the metal no longer she fell into a snowbank beside the tracks. Her little nephew, "Billy" Hartman, was hurled 50 feet but escaped injury. Her grandmother was killed and the others of the family party were injured.

FIRST BILL INTRODUCED IN THE SENATE

SENATOR ROSENMEIER BRINGS UP MEASURE ON ROAD AND BRIDGE WORK

SENATOR DEVOLD, MINNEAPOLIS, INTRODUCES FIRST RESOLUTION

St. Paul, Jan. 7.—The first bill introduced in the state senate as it got down to business today was by Senator C. Rosenmeier, Little Falls.

It is a measure affecting the action of county commissioners on road and bridge work by bond issue in fourth class cities.

Senator A. O. Devold, Minneapolis, introduced the first resolution. It provides for the union label on all senate printing and was laid over until tomorrow for action.

Routine matter occupied most of the Senate's time before the joint session for the inaugural this morning.

The report of the rules committee as adopted provides for state control by a paid legislature. The report provides for a two-thirds vote of the Senate before bills may be made special orders of business and before the rules may be suspended. Indications were that it would be adopted.

A second bill introduced in the senate today would give the board of regents of the University of Minnesota bonds to build a $500,000 dormitory to relieve great congestion at the school. This would cost the taxpayers nothing, since the state would issue certificates of indebtedness and the interest on these would pay rentals.

Several bills are ready for introduction. Some of these will be introduced tomorrow. Representative Joseph Masek, St. Paul, has prepared a gasoline tax bill, copying the Indiana law. It proposes a tax of 2 cents a gallon on gasoline which Masek estimated bring an annual revenue of about $4,000,000. The bill also proposes a reduction in the present automobile license tax to $3 a year on automobiles under 2,000 pounds and $5 a year on cars over 2,000.

Representative John E. Stevens, Minneapolis, has a bill providing for party political conventions to nominate candidates for state office, United States senators and representatives in congress. This bill would also return the legislature to a partisan basis. It has been on a non-partisan basis since 1913.

Committees in both houses will be agreed on Monday.

CHRISTIANSON BECOMES GOVERNOR OF STATE

(Continued from Page 1)

herd wil return for further examina- responsibility to hold down appropriations.

Good Roads Bonds

The new governor's statement that the voters have said they "do not want increased bonded indebtedness," and a further statement that "we should create no new state obligations," were taken as indicating a determination to oppose the Babcock good roads $20,000,000 bond issue. He also stated that the state should "not accept any new form of federal aid conditioned on state expenditures."

Study Taxation

The legislature was urged to study taxation, not only from a statewide standpoint, but with a view to legislation which would curb local taxation. He urged reasonable limitations be placed on the power of municipalities to issue bonds.

Motorbusses

Motorbusses should come under the regulation of the state railroad and warehouse commission as common carriers, the same as railroads and street railways, he said.

Co-ordination of the state agencies having to do with conservation of natural resources was urged, and some definite plan to be worked out after departmental reorganization is accomplished, was hinted at.

Educational System Expensive

"Our educational system is expensive enough—let us now labor to make education intensive," he urged regarding the state's educational policy.

Worknig For All the People

"I am proceeding on the principle that what is best for the people as a whole is best for every class of people." He urged the slogan, "When in doubt, vote no."

"I can say without offense that legislatures sin more often by enacting laws than by defeating proposed measures.

"It would be to the credit of the 1925 legislature if it should pass fewer laws than any of its predecessors."

Gov. Preus Speaks

Governor Preus in retiring reviewed his administration.

"One party sought to establish in Minnesota a system of state socialism along the lines attempted before and since in North Dakota," Preus said. "A decisive victory was won."

He eulogized the late Senator Knute Nelson and urged that the legislature authorize the erection of a monument to correspond with the Johnson A. Johnson monument now in front of the capitol.

DAYS OF DRUNKEN CONGRESSMEN GONE

ANDREW J. VOLSTEAD GIVES INTERVIEW ON SCOTT CASE

(By United Press)

Granite, Falls, Minn., Jan. 7.—The days of drunken congressmen are gone forever, Andrew J. Volstead father of the prohibition act, said today.

He was questioned concerning allegations of Mrs. Frank D. Scott, wife of Representative Scott of Michigan, that drinking orgies were the chief pastime of some lawmakers in Washington.

"I have seen the day in Congress when men on the floor were so drunk they couldn't stand," Volstead said. "I habe witnessed scenes that would disgust an ordinary barroom, and I have heard speeches made under the influence of liquor that were ridiculuous.

"Since prohibition there has been none of that. While some Congressmen undoubtedly still drink, there has been so great an improvement that there is no comparison with former days."

"Congress generally is sober."

CARDINAL FINDS WRONG ON THRONE

EMOTIONALISM RULES, REASON CHALLENGED, CATHOLIC PRELATE DECLARES

New York, Jan. 7.—"Emotionalism has come into power!

"The time-honored principles of right and wrong, of personal responsibilities, are being questioned.

"The twentieth century finds reason challenged as to its supremacy."

Such are trenchant extracts from an interview on present-day problems granted by his eminence, Cardinal Hayes, one of the nation's great religious leaders. Cardinal Hayes sees truth in combat against an irrational individualism and the commandments being reduced to a minimum of obligation.

He continues:

"The commandments are honored more in the breach than in the observance. Only the pragmatic spirit of the day prevents their total neglect.

"'Thou shalt not steal' seems to be the whole law and the prophets as well. And even this is narrowed down to a man's material possessions.

"Steal his money and no prison sentence will be too severe. But steal his wife and it is condoned as romance, instead of the vile and rotten thing which it is.

"History teaches us a forceful lesson. The middle ages were decried as dark ages because religion was enthroned as queen. The enlightened 18th century beheld religion enthroned and reason crowned as king. The rationalism that followed played its part, not without great havoc among men. Kantism developed with the clouding of the faculties of the human mind to such an extent as to put truth on the defense against theory.

Pillows Not of Pine

The forest service says that pine needles are not generally used in making pillows. While the pillows are called "pine pillows," the needles are generally those of the balsam fir, or spruce—either red, white or black spruce. No special time of the year is specified for gathering these needles, since they are evergreens.

Wife Doing Good Work

"I have been bad off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist, I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.—Advt.

STATE LAW ON USE OF THE FLAG

ADOPTION of the American Legion flag code as a pattern for decorating public buildings on all occasions when the national colors are used is provided in a bill which the American Legion is fostering at this session of the legislature.

The proposed bill also provides that the Legion's flag code be taught in all of the schools. The Legion is also advocating other legislation, and this includes that alien teachers shall be prohibited from serving in any elementary school in Minnesota and that it shall be unlawful for departments of education or school districts to pay any such teachers.

Other legislation sought is an amendment to the rural credits law to extend greater benefits to former servicemen; forest conservation; a boxing bill extending legalized fights to many cities, whereas now only St. Paul, Minneapolis and Duluth regularly enjoy such privileges; a soldiers' peddler law; a guardianship officer, authorizing probate courts to commit insane veterans direct to the Veterans' Bureau hospital in Minneapolis, and placing surplus cash of the soldiers' bonus fund in the soldiers' welfare fund.

FAIRMONT FARMERS FIRE TRUCK

FAIRMONT farmers may safely be classed as among the most progressive in the state. They have bought a fire truck and are now engaged in practice work to gain the efficiency necessary to douse any neighborhood fires.

The practice program is reported to include trial runs to corn cribs; dropping milk cans and boarding the running board; stopping the milking machine or cream separator and starting the fire truck; connecting a hose line with the wind mill pumping station.

The truck is well greased up, the tires are pumped full, the tank carries ten gallons of gasoline, and the farmers, metaphorically speaking, are champing at the bit and prancing in the stall, waiting for the first fire gong calling them into action.

HOMES VITAL TO FUTURE OF U. S.

To encourage and facilitate home building, reduce needless burdens in household operations, raise standards, not only of the home but of the community and the nation is a task of profound importance for the welfare of America, declares Secretary of Commerce Hoover, president of Better Homes in America, in an opening statement concerning Better Homes Week demonstrations for 1925, which will be held May 10th to 17th.

"It is in the home," says Mr. Hoover, "that character and high ideals are best developed." The right kind of home-life is the foundation of the republic.

PROTECTING AMERICAN LABOR

PRESIDENT COOLIDGE has well said: "I should like to see administrative features of the immigration law rendered a little more humane for the purpose of permitting those already here a greater latitude in securing admission of members of their own families."

"But I believe this law in principle is necessary and sound, and destined to increase greatly the public welfare. We must maintain our own economic position, we must defend our own national integrity."

OUT in Lead, S. D., a painter daubed a pine door of P. A. Gushurst, pioneer merchant, and with it went all the data inscribed thereon by old timers including such things as a record of storms, hottest and coldest days, deaths of prominent people, Indian raids, etc. The same thing happened in Brainerd at the Cochran & Hess barber shop when the senior partner lived. John Cochran kept accurate record of the weather, duck flights, hunting records, etc., on a door frame and they remained there for ready reference until the bathroom was coated two coats of white enamel, effectually obliterating the records.

A NEW inspector has made his appearance on the payroll of the taxpayers—he is the bee inspector who visited Thief River Falls recently, says the Red Lake Falls Gazette. Along with this we learn that Thief River Falls has a deputy bee inspector. We presume the duties of these bee inspectors is to inspect the bees' knees, so that the knock-kneed and the bow-legged bees may be kpt in separate swarms.

MRS. HELEN KELLER, 19, "long distance telephone bride," has been granted a divorce. She "got her party" all right (that is, her husband), 4,000 miles of telephone bridging the gap between her husband in Bremerton, Wash., and the bride in Fort Worth, Texas, and permitting the ceremony to be telephoned. But it seems that since the ceremony there has been line trouble.

SLEEPY EYE is sleepy no longer. Every girl now has her eye open for a "kiss burglar." The latter is most gentlemanly and in one instance carried a girl's suitcase from the depot to her home and at the door he asked for a kiss. The girl screamed in horror at the very thought of such a thing and the bold alleged "kiss" burglar fled through the gloom.

SOME people just can't keep quiet. When they are told to cultivate repose, they find that it takes a whole lot of energy to keep quiet. The bodies of children and the minds of adults keep immobile only by conscious and continuous effort. If you want to see perfect repose, watch a cat taking its nap.

A WAY to stop the hiccoughs has been found. The postmaster of Fairmont, who is a man, coughed three days steady and then doctors put a tape line around his waist, heaved on her and the hiccoughs stopped.

SOMEBODY hit the balmy climate of California another whack and now it's the models that pose in the nude in the art studios. They protest that they will die of the cold unless the Art Institute is artificially heated.

FORMER GOVERNOR PREUS is to be the Major Britton of Minneapolis.

Red Light Easily Best for Signaling Purposes

It is ascertained from the bureau of standards, in the Department of Commerce, that the red light leads all the rest for signaling purposes, its visibility far outranging lights of any other color. A grasp of the truth now scientifically demonstrated of course accounts for the selection of red in the railroad service, on the highway and in theaters for the "danger" light. Its use in theaters and public halls where it might suddenly become necessary for a crowd of people to seek safety through emergency exits, has been criticized on the ground that green, not red, is the "safety" light. But there is common understanding of the meaning of the red light when it marks a fire-exit, and the use of it to guide a panicky assemblage to safety is justified, inasmuch as for catching the eye there is no color so effective as red.

No departure from long customary traffic practice is to be expected as a consequence of the intensive study of signal lights, which the bureau of standards is making in co-operation with the national safety council, the railroads and highway organizations, although some difference in the shades of the colors now in use may be recommended. Green is scientifically proved to be a far second to red in visibility, yellow and blue following in order, concludes the Providence Journal.

Man Long Has Sought Dominion of the Air

The desire to conquer the air and emulate the birds is no modern fancy, but has agitated the minds of men mechanically inclined for ages. Records of a meeting of the Royal society, held in London, England, in 1679, give the information that "Mr. Hooke read a paper containing a description of the way of flying, invented and practiced by one M. Besnier, a smith, the contrivance of which consisted in ordering four wings folding and shutting to be moved by his hands before and his legs behind, by which he was, it was said, able to fly from a high place across a river to a pretty distance," the Montreal Star says. One of the members of the Royal society apparently cast some doubts upon the practicability of the invention. "Mr. Henshawe conceived that by reason of the weakness of a man's arms for such kind of motions, it would be much more probable to make a chariot or such like machine with springs and wheels, that should serve to carry one or more men in it to act and guide it."

Ivy Not Harmful

Ivy on the walls does not make a house damp. The leaves of the ivy act as tiny umbrellas to deflect much of the rain from the wall. Of that which reaches the wall, some would be absorbed by the rootlets of the ivy, so the net result would be to keep the wall dried. While it is true the ivy might prevent some of the water absorbed by the wall from evaporating quickly, yet this effect would be very small compared with the quantity of water screened off. A fair growth of ivy on sound walls that afford no entrance beyond the superficial attachment of the rootlets, or claspers, is very beneficial, as it promotes dryness and warmth and reduces to a minimum the corrosive action of the atmosphere.

Buttons Denote Rank

A button is worn on the headgear of Chinese officials, both civil and military, as a badge of rank. There are nine ranks, the first and highest being distinguished by a transparent red (ruby) button; the second by opaque red (coral); the third by transparent blue (sapphire); the fourth by opaque (lapis lazuli); the fifth by transparent white (crystal); the sixth by opaque white; the seventh by plain gold; the eighth by worked gold, and the ninth by plain gold with a certain character engraved upon it.

Bold Forgeries

The name "Ireland Forgeries" is given to certain Shakesperean autographs, private letters and plays, which a youth named Ireland claimed to have discovered, but which he had in reality forged. One of the plays, called "Vortigern," was produced at the Drury Lane theater, April 2, 1796, but proved to be a vapid and senseless production. Ireland soon after acknowledged the forgery and published his "Confessions" in 1805.—Kansas City Star.

Didn't Exhibit Themselves

The old gentleman was very fond of golf, but his play seemed to get worse and worse.

Finally, after missing the ball every time, he turned to his patient caddie and remarked: "Dear, dear! There can't possibly be worse players than myself."

"Well, perhaps there may be worse players," said the boy consolingly, "but of course they don't play!"

Color Blindness Permanent

Color blindness is not curable, and sometimes exists in eyes that are otherwise normal. It is found in 3 to 4 per cent of men and less than 1 per cent of women. It is particularly important that railway and marine employees do not have this defect, since the safety of the traveling public depends in a large measure upon the accuracy with which red and green signals are observed.

Served Turn Only as Symbols of Kindness

Mr. Smith, writes a contributor to the Youth's Companion, had made a particularly good catch of black bass. Mrs. Smith picked out a nice big one and sent one of the boys with it over to their neighbors in the adjoining camp. "We won't bother to clean it for them," she said, "because that big boy of theirs can do it just as well as we can."

A few days later the grateful neighbor, not to be outdone, returned the favor by bringing across to the Smith's back door a nice juicy raspberry pie freshly made from the wild raspberries growing in the woods behind the camps. That day the storekeeper across the lake had his weekly shipment of ice cream from the city, and none of the Smiths felt much like eating pie. The next day they all went on a trip down the stream, and the third day when the pie was served it had become so soft and soggy that everyone refused to touch it. Wrapping it up carefully in a newspaper, so that no one should see it, Mrs. Smith gave it to young Tom and asked him to take it out in the woods and bury it.

The next morning Mr. Smith went out to dig worms for his day's fishing. As he turned up the moist brown earth there, lying side by side, symbols of neighborly kindness, were the black bass and the raspberry pie!

New Microscopes That Have Marvelous Power

The great world of little things revealed by the microscope is about to become greater still, for new instruments have been invented which have enormously increased the magnifying power which is at man's command. News of a new microscope which will magnify an object over 600,000,000 times, or 25,000 diameters, has lately come from two sources at once. One such instrument has been invented by Doctor Siedentopf of the famous Zeiss firm of Jena; another, capable of giving even greater magnification, has been perfected by N. D. Chopra, a British metallurgist, who has already solved with it the problem of avoiding corrosion in tram rails, a discovery which will save enormous sums of money in all countries.

A good microscope of moderate power will magnify an object about 600 diameters, or 360,000 times in square measure. Such a magnification as this is difficult to imagine, but some idea of the power of the new instruments may be gathered from the fact that a tennis ball, if it could be viewed through them, would appear about one and a half miles in diameter.—My Magazine, London.

Musician's Fine Memory

It is doubtful if there has ever been any one in the whole history of the art whose musical memory was so marvelous as Mendelssohn's. We are told (says a writer in John o' London's Weekly) that he hardly ever needed a score on any occasion whatever and it is authentically recorded of him that shortly before his death he played through from memory the whole of Beethoven's "Ninth Symphony"—a truly prodigious feat.

Another well-attested anecdote of Mendelssohn tells how on one occasion when he was rehearsing without score a chorus from Bach's "Matthew Passion" he called out at a certain point: "Please note that at the twenty-third bar the sopranos have C and not C sharp."

All Ages Have Suffered

How often do we hear old people say that the world is less healthy now than it was in their "young days," when most of the diseases which our doctors are fighting seemed to be quite unknown.

These aged pessimists will get rather a shock as the result of discoveries which have just been made at Solutre, near Macon, London Tit-Bits says.

Fifteen skeletons, some of them fifteen to twenty thousand years old, have been found, and many of these show that our modern maladies are by no means so new as our grandfathers imagine. Primitive man, for instance, seems to have suffered just as much from rheumatism, tuberculosis and dental troubles as do his descendants.

Inconvenient "Currency"

Economists tell learnedly why money makes the commercial world go round, but a Parisian opera singer of a decade ago learned the lesson in one classic experience. She was determined to tour the world thoroughly and she stopped over in the Society islands, where her manager contracted to have her sing for one-third the receipts. Her share of "the box office" was 3 pigs, 22 turkeys, 44 chickens, 5,000 cocoanuts and an uncomputed quantity of bananas and oranges. She couldn't convert her proceeds; the natives had no money. She fed the fruit to the animals and donated her barnyard to the community when she sailed away.

Production of Tea

The tea plant is cultivated in two varieties in China—Thea bohea and thea varides in the provinces of Kwang-Tung, Fu-Kien and Che-Kiang. The tea plantations are usually formed in a deep rich loam, never on low lands, but on low hilly slopes. The leaves are gathered three times, in the middle of April, in the beginning of May and when the leaves again are nearly formed. The first gathering yields the finest and most delicate tea, but with considerable injury to the plant.

HAROLD LLOYD in Hot Water

HOOKED---AL LAST!

Good heavens! How had it all happened? Here he was holding in his arms the most exquisite creature his eyes had ever beheld—all pink and white and alluring! Holding her for only a brief, fleeting moment! And then like a bolt of lightning came the devastating realization that he, the cynical, bragging, scoffing, unconquerable bachelor had at last been conquered!

His heart told him he was in heaven! His head told him to drop her and run, run! But did he? He did not! HE COULD NOT!

And then things began to happen!

You know Harold Lloyd. You know what he can do with comedy. Don't ask us to tell you. We haven't the heart. And we couldn't find words to do it if we wanted too! Go and see for yourself!

YOU'LL HAVE THE MOST RIOTOUS TIME OF YOUR LIFE!

GET RID OF THAT BACKACHE!

Brainerd People Point the Way

The constant aching of a bad back, The weariness, the tired feeling; Headaches, dizziness, nervousness, Distressing urinary disorders— Are often signs of failing kidneys And too serious to be neglected. Get rid of these troubles! Use Doan's Pills—a stimulant diuretic to the kidneys. Hosts of people recommend Doan's. This is a Brainerd case. You can verify it.

Mrs. J. R. Mutch, 618 5th St., says: "I had a steady dull bearing down feeling in my back and when I stooped severe pains darted across my kidneys. My back was so sore and stiff it seemed it would break if I stopped. I became tired and completely run down. A friend suggested Doan's Pills so I bought some at Dunn's Drug Store. Doan's gave me wonderful relief."

PERMANENT CITY IMPROVEMENT MADE

List For 1924 Totaled $56,205.32 According to City Engineer Campbell

MUCH DEVOTED TO PAVING

Latter Amounted to 17,195.2 Square Yards Concrete and 7,222.2 Square Yards Tarvia

Permanent city improvements completed in Brainerd during the season of 1924 totaled $56,205.32, according to a tabulation of permanent improvement work submitted by City Engineer R. T. Campbell to the city council at the regular meeting of that body on Monday evening.

Of this grand total $49,271.05 was used in paving; $3,087.53 in curbing; $1,596.89 in sidewalks, and $2,249.85 in sewers.

The paving done in Brainerd during the past season totaled 24,417.4 square yards, of which 17,195.2 square yards was of concrete and 7,222.2 square yards was of Tarvia construction. There were five paving jobs completed in the city during the 1924 season, which are as follows:

1. Concrete paving on North Fourth street between Kingwood and North Bluff avenue, 6,326.8 square yards, costing $13,729.16.

2. Concrete paving on North Sixth street, between Holly and North Bluff avenue, 2,900.6 square yards, costing $6,844.53.

3. Concrete paving on South Seventh street, between Oak and Rosewood streets, 4,526.8 square yards, costing $10,036.69.

4. Concrete paving on South Fifth street, between Laurel and Oak streets, 3,441.0 square yards, costing $7,535.79.

5. Tarvia paving on South Broadway between Laurel and Oak streets, 7,222.2 square yards, costing $11,124.88.

Curbing done in the city during 1924 amounted to 7,686 lineal feet, and cost $3,087.53. This improvement was divided as follows:

North Fourth street, between Kingwood and North Bluff avenue, 1,270 lineal feet, costing $517.77.

South Seventh street, from Oak to Rosewood street, 1,670 lineal feet, costing $701.54.

South Fifth street, from Laurel to Norwood street, 1,221 lineal feet costing $503.37.

Pine street, from Eleventh to Sixteenth street, 3,454 lineal feet, costing, $1,347.10.

Kingwood street, and West Bluff avenue, 38 lineal feet, costing $9.50.

Kingwood street and Chippewa street, 33 lineal feet, costing $8.25.

During the past season there were 1,046 square yards of sidewalks constructed in the city, at a cost of $1,596.89.

Two sewer projects were completed during 1924. Lateral sewer c-12a, on Eleventh street, between Quince and Portland avenue, 624 lineal feet, costing $979.50, and lateral sewer A-5a, in the alley between Second and Third avenues from G to I street, Northeast Brainerd, 807 lineal feet, costing $1,270.35.

The paving constructed consisted of reinforced 6-inch concrete, using washed gravel for coarse aggregate, and was placed on all streets so paved. On South Broadway a 3-inch Tarvia pavement was constructed using as a foundation the macadam pavement that was already in place.

The paving laid during the 1924 season brings the total of the permanent paving in Brainerd up to 126,078 square yards, or nine and a quarter miles. Adding the cost of this season's paving to that already constructed, brings the value of the permanent paving up to $454,308.21. This value is based on the actual cost of construction, according to the city engineer's report.

The curbing, with the exception of that done on Pine street, was constructed ahead of the paving. A desire to improve their street prompted the residents on Pine street to have their curbing built, says the report.

The sidewalks constructed represent 1,504 lineal feet of standard walk, located in various sections of the city. The amount of sidewalks as shown by the report was ordered in by resolutions of the council. Additional portions of walk were built throughout the city by property owners.

The sewers constructed are extensions of existing lateral sewers, and are serving the rapidly growing sections of the city.

Sewer and wiring permits were issued in accordance with the provisions of the ordinances governing same. Sewer permits issued totaled 46, and wiring permits issued totaled 36.

OBITUARY

Mrs. Jennie Healy Borden Born in 1851, Died on January 2, 1925

Mrs. Jennie Healy Borden was born in New Hampshire in 1851, and passed away on January 2nd, 1925 at the lake home of Thomas Russell, after only a few days illness.

In early childhood her parents moved to Minnesota, settling in the southern part of the state, and she has since made her home here.

She was united in marriage to James C. Borden in 1868, several years after the close of the Civil war in which he saw much active service. To this union were born three children, Florence, Eva and William. At the death of Mr. Borden's sister, they adopted and faithfully cared for three of her children, Maude, Minnie and Howard. Beside the children, one brother Will Healy, of California, survives the deceased.

Mrs. Borden was a faithful member of the Seventh Day Adventist church. She was a good mother, a kind neighbor, and had a host of friends who deeply feel their loss in her passing.

Mr. and Mrs. Borden were counted among the pioneers of Crow Wing county, coming here from the southern part of the state with an ox team and living first at Mille Lacs. Later, they moved to their farm home north of Merrifield.

Mrs. Borden was laid to rest beside her husband in the Mission Lake cemetery to await the call of the Life-Giver.

NEW GRIST MILL IN CITY

J. W. Hilliard, With Much Experience in Work, to Conduct Enterprise

HAD MILLS IN HAWLEY, ETC.

Will Install Modern Machinery in the Brainerd Plant

J. W. Hilliard, residing north of Brainerd, will open a grist mill in the city in the near future. The opening date will be announced in an advertisement in the Dispatch soon.

Mr. Hilliard has had much experience in his chosen work. He first took up milling at Hawley, in the early days when the grinding was done with stone burrs. For seventeen years he conducted a grist mill at New Prague.

Modern, up-to-date machinery has been ordered, which will include a mill for grinding of all kinds of cereals, an innovation in Brainerd. In addition to this, all kinds of feed will be ground.

LOIS JOHNSTON, SOPRANO

With Accompanist, Hubert Carlin, to Appear in Recital Here

Lois Johnston, noted soprano, will appear in Brainerd at the New Para theatre Sunday, January 11, under Brainerd Musical club auspices. Hubert Carlin, will be her accompanist and will also play several piano solos.

Some singers prefer opera as a medium for expression, others declare the concert stage is the best form of expression for their art and still others go in for a combination of the two.

Lois Johnston, prefers the concert stage as a means of expressing her own individuality and her own charming personality. Although she has had sensational success in operatic roles, this young soprano is happier when singing from the concert platform.

Miss Johnston believes that only though the concert stage is a singer enabled to give truly American audiences what they truly desire in a singer.

She strives to put into her programs selections devised to please all cultural musical tastes and critics all over the country have universally remarked how judiciously she blends into her appearances numbers that find an appeal with all her audiences.

Moreover she believes that the concert stage is a true test of the ability of an artist to charm an audience. Not only the voice, but the personality as well, counts on the concert stage, and Miss Johnston possesses both voice and personality in abundance.

MRS. WM. BEARSLEY PASSED AWAY

Hubert Lady Succumbed to Illness of a Month's Duration

FUNERAL ON THURSDAY

Services at Whitney Chapel, Rev. A. G. Patterson Officiating

Mrs. William Bearsley passed away at a local hospital on Monday afternoon, following an illness of over a month's duration. Death was caused by pneumonia.

Emma Hendrickson was born at New Richmond, Wisconsin, August 25th, 1879. While a young woman she moved with her parents to Brainerd, where the family lived for a number of years, later moving to Pillager, where they have since resided.

The deceased was first married to Guy Lasher, at Grand Forks, N. D. To this union was born one child, a daughter, Mrs. Eva Murray, of Little Falls.

Mr. Lasher died and his widow married William Bearsley about eighteen years ago. One child, a son, was born to this union, being Ernest Bearsely, of Brainerd.

The family has made its home at Hubert for the past twelve years, where Mrs. Bearsely is very well and favorably known.

Surviving her, beside her husband and children are her father, Henry Hendrickson, of Pillager, and two brothers, Oscar and Albert Hendrickson, of Bismark, N. D. One sister passed away four years ago, in Canada.

The funeral will be held at the D. E. Whitney chapel at ten o'clock Thursday morning, Rev. A. G. Patterson of the Presbyterian church, officiating, and interment will be made in the family plot in the Pillager cemetery.

The sorrowing family has the sincere sympathy of the community in its sad bereavement.

You already know all that motor cars have to offer in Superior Sixes, reserved judgment until you drive the great car, Hupmobile "8."

18213

Missionary Society

The annual meeting of the Missionary society of the First Congregational church will meet on Friday afternoon at the office of Mrs. Irma C. Hartley, in the court house.

The study period will be directed by Mrs. Harry Wilson, and is taken from "The Harvest," Chapter III, "Ming Kwong."

Members are requested to be present promptly at three o'clock and to come prepared to pay their dues.

Ladies Chorus

The first after holiday rehearsal of the ladies chorus will take place 7:30 Thursday evening at the Thos. Jones residence, 401 North Broadway. It is not too late for new members to join and anyone interested will be welcomed. It is highly important however from now on to have a full attendance at every meeting as there are to be only six rehearsals before the appearance in February of the ladies chorus on one of the programs of the Brainerd Musical Club. Please keep the coming six Thursdays free from other engagements and be on time at the rehearsals.

Our Garment Sales

Women who are economical are selecting dresses and coats at the big reductions we are making. The sale is on. Come.

Those Dress Bargains

We simply must have less dresses and these prices are our plan of obtaining a reduction. Here goes.

Pretty Flannel Dresses Striped and plain flannel dresses and some plain colored dresses. Values up to $20.00 at $9.95

Fine $25 Dresses Not just a few but a large line of new silk dresses, and you'll like the styles immensely $15.95

Charmeen and Twilline Beautiful late styles made of fine materials and made in styles you will want to possess, at $19.75

Twilline Dresses Not a one in this lot worth less than $25.00. Excellent new styles. Most remarkable values $15.95

Fine Silk Dresses Mostly our $19.75 dresses. Think what a selection this will be at this price..... $12.95

Our $30 Dresses Not just a few but many silk dresses in this lot. It is our greatest sale..... $19.75

And Those Coat Bargains

Beautiful garments. Remarkable qualities. Prices lower than they should be but we must have a clearance.

$50 to $95 Fine Coats A large selection of pretty fur trimmed garments and all reduced materially. Be sure and see these.

$39 Fur Trimmed Coats Seldom does such an amount of money buy such excellent coats $23.75

$25 Fur Trimmed Coats The most remarkable coat offering of the season. This price does not represent their worth $12.95

$42.50 and $45 Coats Choice garments, fine materials trimed with very pretty furs. Don't let these pass at $29.75

64x76 Blankets $1.98

27-inch Heavy Outing 15c

DAIRY INSPECTORS REPORT

During December Official Traveled 450 Miles in This Service

The following is the monthly report of the city dairy inspector, covering the month of December, as submitted to the city council at its regular meeting on Monday night:

During the month approximately 151 hours were spent in milk inspection service, and 450 miles traveled in this service. Nine milk licenses were granted. In the butter fat tests, 11 milk samples were tested and four cream samples, none of which were found illegal. In the sediment tests, 11 samples were found clean, the only ones tested.

Forty-four cows were tested for tuberculosis in the following herds: J. Soderlund, Otto Hill, L. J. Erickson, J. Selen, C. Erickson, Otto Metzer, I. J. Storstad, S. A. Stanley, J. Wolf, J. Kukko, E. H. Luepker, and T. Helgesen. None of the cows were condemned.

The following dairies and plants were inspected and found to be in a satisfactory condition: Echo Stock Farm, K. F. Karlson, Otto Hill, C. Oravala, W. A. Blakey, A. Liners, A. Fredstrom, Z. Fremling, M. Anderson, A. Moe, Mrs. Lund, H. Hermanson, Matt Hay, J. A. Peterson, C. Erickson, H. Hendrickson, M. Isaacson, Otto Metzer, J. Selen, L. J. Erickson, J. Soderlund, E. H. Leupker, I. J. Storstad, C. H. Smith and J. P. Johnson.

The physical examination was given to 193 cows in the following herds: A. Moe, Z. Fremling, M. Lund C. Oravala, K. F. Karlson, Echo Stock Farm, J. P. Johnson, A. Fredstrom, Otto Metzer, J. A. Peterson, H. Hermanson, M. Anderson, J. Selen, Matt Hay, M. Isaacson, E. H. Leupker, I. J. Storstad, W. A. Blakey, A. Liners, L. J. Erickson, Otto Hill, J. Soderlund, C. Erickson, C. H. Smith and H. Hendrickson.

Clara Lutheran Church

The ladies aid of Clara Lutheran church will meet at the church parlors Thursday afternoon at 2:30 o'clock. Mrs. Victor Peterson and Mrs. Samuelson will entertain. Let us start the new year with every member present.

THE VERY NEWEST IN SMART STYLES

FAIR HEDDA HOYT DESCRIBES SATAN'S EYE FOR STYLE

EARRINGS COMING IN STYLE AGAIN FOR EVENING WEAR

By HEDDA HOYT
(Fashion Editor of the United Press)
(Written for the United Press)

New York, N. Y., Jan. 7.—When Satan added a bright red tail to his red flannels to give a bit of dash to his "toute ensemble" some of his admirers thought he had gone a bit too far. But not Satan! He added a couple of horns to his head and called it a day. And ever since that time mankind has been interested in head ornaments. While some savages still prefer horns to other types of ornamentations, the ladies mentioned in the social columns prefer more glittering jewels.

Just now we are changing from head bandeaux of leaves to more individual arrangements of flowers. Both real or imitation flowers may be worn and some of the favorites are the red rose, the cluster of carnations, the orchid, the gardenia and the poinscetta. Usually the single flower is worn at one side of the bobbed hair and some women wear the red rose pinned low in the hair, so that it falls on the neck "a la Carmen.' Several younger girls are wearing sprays of little pink moss roses coiled so as to form a circle at one side of the head. This is very youthful and becoming to the blond type of beauty who goes in for pastel shades in evening gowns.

Matrons still prefer the bandeau to the floral head decoration and they are choosing flat types which are made of brilliants and are wearing them well over the forehead. Leaf wreaths are not worn at all by smart women this season. A few younger misses contort wreaths into rosettes which they wear on the side of the head.

* * *

Earrings are coming in style again for evening wear. Paris has gone mad over the pendant type of earring and one already sees the vogue spreading in America. Earrings can be ever so smart on the bobbed head if one but chooses them correctly. Nearly all dainty pendant types are preferable to heavy Oriental ones which demand a more Grecian type of hair-do.

* * *

The only bar that is much in evidence in New York is the bar-pin. It has been some time since we considered the bar-pin seriously, as they went out of style with the shirtwaist and separate blouse. Today's bar-pin, however, is not to be sniffed at. It is the smartest thing one can wear in the way of evening accessory and it is pinned on the left shoulder of the gown in vertical fashion.

Some of these pins are so large that they look like fobs hanging from the shoulder. Almost invariably they are of glittering rhinestones set in silver so deftly that they resemble real diamonds set in platinum. All department stores are carrying them and the better ones have small stones rather than large ones and are chosen for their detail of design. Most of those worn with the dinner or dance frock are from one-half inch to an inch in width and from three to four inches long.

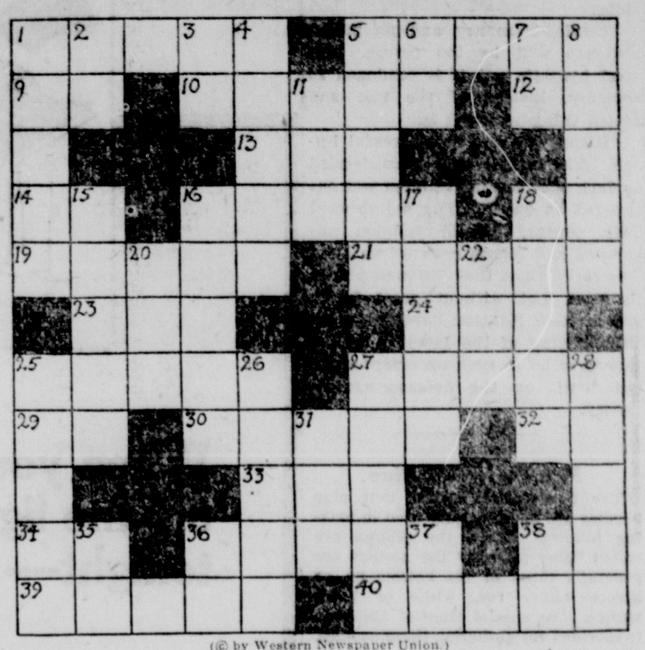

* * *

Consider the modest violet! It is ousting the orchid and threatening to become the favorite corsage, both for day wear and evening wear. Bunches of Parma violets, real or imitation, usually without leaves, are worn on the fur wrap. For eveningtime they are sprinkled with diamond dust and worn on the shoulder. Another favorite evening corsage which, of course, is worn on the shoulder, is the large water lily. Its petals are also outlined in diamond dust.

Still another new type of shoulder decoration is the bow-knot of velvet, which may or may not match the frock in color. When one thinks of the corsage this season one naturally thinks of the left shoulder, but it remained to a little New York debby to start a new manner of wearing the corsage. Recently she has appeared at the opera wearing long white kid gloves, which by the way, are gradually slipping back into style, and at the wrist of the right glove she wears a bright red rose, the stem of which passes through two little slits in the kid made for that purpose. Just how soon other debutantes will begin using the safety razor on their gloves is a matter of conjection.

Jacob's coat of many colors wouldn't have a chance with Mrs. Jacob's coat this season. Not that hers would out-rival the color scheme of the Biblical coat, but she wears hers with a dash that poor old Jacob never heard of. It one were to select the smartest evening wrap of the season, barring ermine, one would select a black velvet cape lined with silver metal cloth and collared with silver. Some of the newest capes using such materials are made with silver lame, forming the entire upper portion and ending just below the normal waistline, the remainder of the wrap being black velvet. Linings may either be of silver or of bright green or red.

FEDERAL ROAD AID TIE UP THREATENS

MINNESOTA CANNOT MATCH GOVERNMENT GIFT FOR HIGHWAYS

Minnesota will lack nearly $2,000,000 of the amount necessary to obtain a like amount of 1925 federal aid and its auto tax payers will lose the use of nearly $4,000,000 of needed highway improvements, if trunk highway income is not increased or provisions made for advances of working capital this year.

Figures in a highway bulletin this week indicates that the good roads program may be crippled as a result. Federal highway aid to encourage states to continue good roads work is conditioned on a requirement that each dollar of government money be matched with a dollar or more of state money. Minnesota will be unable to meet the requirement this year if limited to funds now in sight.

Annual outlays on trunk highways to date under the new program have averaged $3,315,822 for maintenance and administration, $2,092,780 for sinking fund and like items and $10,841,853 for new construction or betterments. About $8,000,000 of the last amount each year has been made up of county bond advances.

Assuming that deductions for junked cars and the 10 per cent depreciation allowance will practically offset any increase in registrations, and that reduction of motor vehicle taxes will net from a gasoline tax only an extra $500,000 from tourists, the bulletin points out that 1925 receipts from those sources will total will total about $9,000,000. Of that amount, maintenance will take about $4,000,000 and the sinking fund and like items about $4,500,000. Then, it adds, but $500,000 will be available to put against $2,100,000 of federal aid. The result will be loss of nearly $4,000,000 of highway betterments this year.

With the gasoline tax added and proposed bonds authorized, however, the bulletin shows, maintenance outlays will be reduced to $3,150,000 a year but the sinking fund total must be raised to $5,500,000. Yet there will be left about $15,000,000 for new improvements and ample funds to take advantage of the government aid.

Further, the bulletin adds, outlays on the trunk highways will be less than those on county and township roads which serve only a fourth as many road users.

Cost of Stamp Production

To supply the nation with its yearly output of postage stamps, more than 50 acres of spruce trees are needed. Ink, paper and gum, besides, are required, so that one million dollars' worth of supplies goes through the stamp machines every day.

LOST AND FOUND—CALL 74

DRINK WATER IF KIDNEYS BOTHER

Take a Tablespoonful of Salts if Back Pains or Bladder is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

—Advt.

Harold Lloyd's Latest Pathe Comedy is a Riot

They came, they saw and they were conquered, captivated and sent into hysterics. The time was last evening, the place was the New Park Theatre, and the reason for all this excitement, was the opening of Harold Lloyd's latest feature Pathe-comedy, "Hot Water." Mere words cannot express the extent of the outburst that greeted the spectacled comedian's latest triumph. The audience did a great deal more than laugh. They shrieked, roared, howled and yelled. Anyone, not acquainted with the mirth-producing ability of Mr. Lloyd, would have thought that a free-for-all fight was taking place inside the theatre. This great picture will be shown again tonight and Thursday.

But, as usual, Lloyd's side-splitting situations are very original and not at all like anything that he has done before. The story opens, showing Harold as a happy-go-lucky bachelor who would no more think of marrying, than he would think of starting out for the North Pole in a pair of pajamas. It isn't long before Nemesis appears on the scene, in the person of little Jobyna Ralston, she of the dreamy eyes and a very kissable mouth. Events take their natural course and Harold finds himself trying, unsuccessfully, to prove that two can live as cheaply as one. And, to add to his many troubles, his wife's family are continually offering a lot of unsolicited advice as to how he should manage his personal affairs.

"Hoot" Millionaire Cowboy in New Role

A good cowboy gone wrong offers a tonic of laughter in "Broadway or Bust," Universal's latest Hoot Gibson release, which comes to the Lyceum Theatre Thursday and Friday. Gibson is introduced as a poverty

SCENE FROM "BROADWAY OR BUST" A UNIVERSAL PRODUCTION Starring HOOT GIBSON

and love stricken cowboy. His girl jilts him because an inheritance of wealth elevates her thoughts of romance to a field of a more fashionable clothed strata. Later, the cowboy has a chance to return his sweetheart's hightoned tactics by snubbing her, when his own financial ship comes in, in New York society. They patch up their quarrel before the final fadeout, but the path of their romance is strewn with laughs and a bit of adventure.

Great Dog Picture at the Lyceum

A treat is in store for all those who patronize the Lyceum Theatre tonight, where "The Silent Accuser," the new Metro-Goldwyn production, has its last showings. A new dog star, Peter the Great, gives a remarkable performance, changing in an instant, from a gentle animal into a snarling, fighting beast. The feature players include the popular Eleanor Boardman, Raymond McKee and Karl Metcalfe.

The story, which tells of a dog's rescue of his master from the punishment incurred by another, has been translated to the screen in a most convincing manner by Chester M. Franklin, who, with assistant director Frank O'Connor, prepared the scenario from Jack Boyle's story.

Anything That's Cheap!!

In these modern times of progress does it always necessarily follow that anything cheap is always without real value? **We believe not.** Proper organization, improved methods and business system form the combination that gives you the answer.

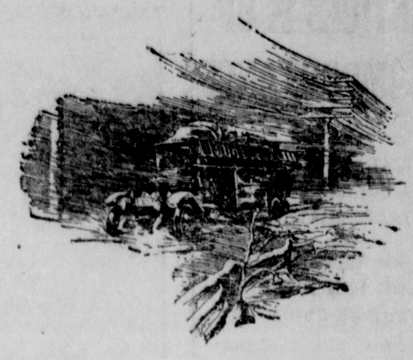

We are working on that basis, so if anyone tells you that because of **our lower prices,** we must of necessity, do inferior work or use inferior materials, **do not** listen but use your own sound judgment. We offer you the **best in modern dentistry** and **guarantee** it to be the best **workmanship and material.** We replace **free of cost** any work that fails.

On the Nation's Business

A SLEET storm snaps wires in New England; a blizzard fells a line of poles in the Western ranges; a flood overwhelms a valley community; a prairie cyclone sweeps away everything in its path;—wherever the emergency, men and materials are rushed to the spot in order that telephone service, vitally important at such a time, may be restored.

And the mending of every break restores to telephone users, everywhere in America, a particular path for the passage of his voice. Whether sudden calamity comes from an Atlantic gale or a Texas "twister," its damage must be repaired at once, because it cripples some part of a communications system that is nation-wide.

Because America has universal service, the telephone truck speeding to a scene of disaster is truly "on the nation's business," and the implements of its workers are weapons wielded in the nation's cause.

BERLENBACH IS FAST RISING STAR

By FRANK GETTY
(United Press Staff Correspondent)

New York, Jan. 7.—No greater improvement has been shown by any rising young boxer this winter than by Paul Berlenbach of New York.

The youngster whose main asset in the ring was for some time nothing more or less than a hefty left hand had added speed, headwork and footwork to his repertoire.

Berlenbach demonstrated this in convincing fashion when he flattened Larry Estridge in less than two rounds. The Negro middleweight champion was giving away a lot of weight, of course, but has been known to do this with success in other bouts. Against the new Berlenbach, Estridge could do nothing but run until the knockout punch caught up with him. And Paul showed himself fast enough to get it there without a great deal of lost time.

This improvement in Berlenbach's ring form opens the way to interesting speculation. Paul's star, ascending, threatens to dim that of Young Stribling and other youngsters who are on their way to the titles now held by the old-timers, Greb and Tunney and McTigue.

There is talk of matching Berlenbach with "Tiger Flowers," and this should make a most interesting match, indeed. The latter is a comer, too, a Negro of no small promise. Fans who have not seen "Tiger Flowers" in action have missed one of the fistic treats of the winter. His recent exhibition against Johnny Wilson, fat ex-middleweight champion, did not extend the "Tiger," who stopped the Italian in a few rounds.

For a long time, it was held that Stribling would whip Berlenbach, because of the Georgia boy's superior speed and boxing skill. Stribling still has something on the New Yorker in these respects, but Berlenbach, as has been said, has improved tremendously in his footwork and apparently retained the sock which won him his popularity and the respect of fistiania's light-heavies.

Berlenbach has "arrived" back, after his defeat—a knockout by Jack Delaney. The latter, a clever boxer and fairly good hitter, appeared in the semi-final bout against Pal Reed when Berlenbach met Estridge at the Garden. It was a bit odd to see a victor taking second place to the man he had beaten, but there is little doubt as to what would be the outcome if Delaney and Berlenbach met again.

Estridge himself once was feared by Berlenbach. It was more than a year back when Paul was knocking over set-ups. One night one of the latter didn't show up, and Estridge made his way to the ringside and noisily challenged Berlenbach. The latter wisely refused the match. At the time he was no match for the Negro, a canny fighter with a good string of victories to his credit.

In the main, Berlenbach has been well handled. He has been brought along gradually, and given plenty to do punching over soft ones in a few rounds. He has fought as often as three times a week, but always "set-ups." Delaney was an accident. Paul learned a lesson. At the same time his being knocked out that night was one of the best things that ever happened to him. And it showed, furthermore, that he could take a licking and come back, which almost everyone who is going to be a champion has to be able to do.

Dan Hickey, one of the most astute managers in the fight game, has been piloting Berlenbach since the Astoria slugger switched from wrestling. Hickey stood between Paul and the fans who would have shouted him into too tough matches, and only gave in grudgingly to the Boxing Commission when absolutely necessary, and let his man meet Delaney, with disastrous results.

Jim Coffey, who made quite a stir in the heavyweight ranks for a time, was another "discovery" of Hickey's. Berlenbach looks likely to go a lot farther than the "Roscommon Giant."

CAPT. FAWCETT AT PINEHURST WINTER SHOOT

FACES THE TRAPS WITH AN ENGLISH HAND-TOOLED GUN

ROSCOE FAWCETT ENTERED IN A GOLF TOURNAMENT AT THE RESORT

Captain William H. Fawcett of Breezy Point Lodge is at the annual mid-winter trap shooting tournament at Pinehurst, N. C., with a new gun. In a letter to the Brainerd Dispatch, he writes:

"Mrs. Fawcett and I and Cpatain Roscoe and his wife are leaving New York (January 2) for Pinehurst. Roscoe is to take part in a golf tournament and will see what I can do at smashing the clay target at the annual midwinter handicap."

"As you are probably aware, this annual shoot at Pinehurst is the biggest trapshooting event in the United States in the winter time. I have just received a new $1,500 hand-tooled Woodward, over and under English gun. It is a marvelous piece of workmanship, although I expect it will take two or three months to break it in so that I can make good scores with it."

Frank Troeh of Portland, Oregon, Pacific coast champion and P. Miller of Dallas, Texas, were the high guns in the first 80 targets of the 160-target Sand Hill special shoot at Pinehurst, in connection with the annual midwinter trap shooting tournament. Both men broke 77 targets.

DRAINAGE FIGHT UP TO CONGRESS

LOWERING OF LAKE LEVEL WILL PERIL FREIGHT RATES, IS CLAIM

Madison, Wis., Jan. 7—The United States supreme court decision restraining the Chicago sanitary district from diverting more than 4,167 cubic feet per second from Lake Michigan disposes of only a part of the questions raised by the state of Wisconsin in its suit against Illinois and the sanitary district, Atty. Gen. Herman L. Ekern said today.

"The state of Wisconsin in common with other states, takes the position that the federal constitution grants no power to congress to authorize any diversion of the waters of the great lakes into the Mississippi river watershed."

The court's ruling, which was the result of an action started by the federal government, is the "first final step in the litigation begun more than 15 years ago," Ekern said.

"It fully upholds the authority of the United States to protect the interests of the people in our great lakes as natural highways for transportation. When it is kept in mind that our great lakes now carry a commerce equal to one-fourth of the total railroad tonnage of the United States, and that this is carried at about one-tenth of the railroad rates, the enormous saving in the development of lake transportation will readily be appreciated."

The attorney general asserted that the sanitary district undoubtedly will seek further delay through congressional action. A committee hearing is set for Thursday on a bill introduced by Sen. McCormick to legalize the diversion of 10,000 cubic feet a second.

"There is no justification for this, and it is as simple for Chicago to provide for a sanitary disposal of sewage as for the cities of Milwaukee and Cleveland and other large cities which have already dealt with the problem, Ekern declared.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost!

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully, dark, glossy and attractive.—Advt.

BRAINERD TO MEET CROSBY HERE FRIDAY

BASKETBALL TEAMS TO BATTLE AT THE LOCAL GYMNASIUM

KARL ADAMS, BIG TEN OFFICIAL, WILL REFEREE THE GAME

The Brainerd high school basketball team will meet the Crosby-Ironton team at the local gymnasium on Friday evening.

A fast game is certain, as all of the teams of the Eleventh district are very evenly matched this season. Karl Adams of St. Cloud, will referee Friday's game.

The new seating arrangement at the high school gymnasium will provide a comfortable seat for all, with a good view of the entire floor.

It is expected that a girls' basketball team from Crosby will meet the Brainerd girls in a preliminary contest, thus giving the spectators two interesting games in the one evening.

Local fans are asked to turn out in force on Friday evening, to give the Brainerd team the hearty support it deserves and will need against the fast range quint.

JOE BUSH'S THREE PET HOBBIES

Joe Bush, famous pitcher of the New York Yankees, recently traded to St. Louis for Urban Shocker, has three hobbies aside from baseball—hunting, bowling and his violin.

Just as soon as the ball season is over, Bush departs for the wilds of Maine or Canada and puts in a couple of months of roughing it.

During the winter he helps keep in condition by bowling. He is an expert at the ten-pin game.

At home Joe spends many hours at the violin. He also has an excellent voice. While with the Yankees he turned down several offers to go into vaudeville.

DEMPSEY TO FIGHT IN SUMMER, REPORT

NEW YORK MATCHMAKER PURPORTS TO HAVE RECEIVED WORD FROM KEARNS

New York, Jan. 7.—Jack Dempsey, heavyweight champion, will fight in New York next summer, Dan McKetrick, matchmaker of the new Henderson crater, in Long Island city who is reparded as Eastern manager for the champion, announced today.

The information, made public at a dinner in connection with breaking ground for the massive stadium, was received over the telephone from Jack Kearns in Los Angeles, this morning. McKettrick said Kearns also declared, according to McKettrick, that Dempsey is free from contracts, having affiliations with no promoter. —Mnineapolis Tribune.

It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.—Advt.

INSTRUCTION OF APPRENTICES IS OF VITAL IMPORTANCE

TYPOGRAPHICAL UNION OFFERS PRACTICAL COURSE FOR THE COMING GENERATION

ELEVATION OF CRAFTSMANSHIP NECESSARY FOR FUTURE WELFARE OF UNION

Indianapolis, Ind., Jan. 7.—Inauguration of a new correspondence course in the printing arts, under direction of a newly organized bureau of education of the International Typographical Union, took place January 1, according to an announcement by James M. Lynch, president of the union.

The instruction covers a wider field than was covered by the course until recently conducted from the union's educational quarters in New York City. The new bureau occupies quarters in the international offices here. John H. Chambers of Dayton, O., is the new director of the educational bureau, the teaching staff of which has been enlarged.

Energy and resources of the union will be devoted to extending work of the educational bureau as rapidly as is practical, Mr. Lynch said.

"The newly installed executive council looks upon apprentice training as of vital importance," said Mr. Lynch. "The I. T. U. protective and beneficial institutions, such as the Union Printers Home at Colorado Springs, Colo. mortuary benefit and old age pension have accomplished much in strengthening the organization, but future welfare of the union requires elevation of craftsmanship and sound education of succeeding generations of printers.

"Employers do not object to paying good wages to good printers, but they will complain against good wages for incompetent men. The same applies in any other trade. It is our ambition to light the way for other trades in this problem of education."

Under bylaws of the Typographical Union passage of the course in printing by apprentices is compulsory. They are required to begin their educational work in the third year of their five-year apprenticeship and the work must be completed before they are admitted to membership. The new bureau will provide adequate methods for checking up the progress of each apprentice in his studies and for determining if he has profited by his studies.

In addition to the merely technical operations of the printing craft, the course will carry instruction in English, punctuation, art in its relation to printing, and in advertising composition. The policy of permitting the student to elect subjects, not included in fundamental course, will be pursued.

"Instructors will endeavor to engage the interest of each student by offering individual attention to his needs and by writing personal letters," said Mr. Chambers. "Whenever possible, too, a 'big brother,' for the apprentice will be selected from the printers in the shop where the lad is employed. The 'big brother' will be in correspondence with the bureau and will be advised of the student's progress and of his difficulties from time to time.

"Apprenticeship committees are maintained by local unions and are charged with responsibility for welfare of apprentices. These committees will be provided with all information needed for encouraging progress in studies, and will be expected to see that each apprentice begins the course at the proper time and that he completes it satisfactorily before his admission to the rank of journeyman. While the course is designed for beginners, educational work will be provided also for journeymen, who wish to perfect themselves in advanced phases of the printing art."

Test questions for use in examination of apprentices by local committees will be supplied by the bureau here.

DAYS OF DRUNKEN CONGRESSMEN GONE

ANDREW J. VOLSTEAD GIVES INTERVIEW ON SCOTT CASE

(By United Press)

Granite, Falls, Minn., Jan. 7.—The days of drunken congressmen are gone forever, Andrew J. Volstead father of the prohibition act, said today.

He was questioned concerning allegations of Mrs. Frank D. Scott, wife of Representative Scott of Michigan, that drinking orgies were the chief pastime of some lawmakers in Washington.

"I have seen the day in Congress when men on the floor were so drunk they couldn't stand," Volstead said. "I habe witnessed scenes that would disgust an ordinary barroom, and I have heard speeches made under the influence of liquor that were ridiculuous.

"Since prohibition there has been none of that. While some Congressmen undoubtedly still drink, there has been so great an improvement that there is no comparison with former days."

"Congress generally is sober."

Girl Who Survives 12 Mile Ride on Cowcatcher, and Baby Hurled 50 Feet Unhurt in Auto Smash

Five members of the Clark family were in an automobile that was struck at an Indianapolis gradecrossing. Mrs. Mary Clark was caught on the pilot of the engine and clung there for 12 miles in zero weather. When her benumbed fingers could cling to the metal no longer she fell into a snowbank beside the tracks. Her little nephew, "Billy" Hartman, was hurled 50 feet but escaped injury. Her grandmother was killed and the others of the family party were injured.

FIRST BILL INTRODUCED IN THE SENATE

SENATOR ROSENMEIER BRINGS UP MEASURE ON ROAD AND BRIDGE WORK

SENATOR DEVOLD, MINNEAPOLIS, INTRODUCES FIRST RESOLUTION

St. Paul, Jan. 7.—The first bill introduced in the state senate as it got down to business today was by Senator C. Rosenmeier, Little Falls.

It is a measure affecting the action of county commissioners on road and bridge work by bond issue in fourth class cities.

Senator A. O. Devold, Minneapolis, introduced the first resolution. It provides for the union label on all senate printing and was laid over until tomorrow for action.

Routine matter occupied most of the Senate's time before the joint session for the inaugural this morning.

The report of the rules committee as adopted provides for state control by a paid legislature. The report provides for a two-thirds vote of the Senate before bills may be made special orders of business and before the rules may be suspended. Indications were that it would be adopted.

A second bill introduced in the senate today would give the board of regents of the University of Minnesota bonds to build a $500,000 dormitory to relieve great congestion at the school. This would cost the taxpayers nothing, since the state would issue certificates of indebtedness and the interest on these would pay rentals.

Several bills are ready for introduction. Some of these will be introduced tomorrow. Representative Joseph Masek, St. Paul, has prepared a gasoline tax bill, copying the Indiana law. It proposes a tax of 2 cents a gallon on gasoline which Masek estimated bring an annual revenue of about $4,000,000. The bill also proposes a reduction in the present automobile license tax to $3 a year on automobiles under 2,000 pounds and $5 a year on cars over 2,000.

Representative John E. Stevens, Minneapolis, has a bill providing for party political conventions to nominate candidates for state office, United States senators and representatives in congress. This bill would also return the legislature to a partisan basis. It has been on a non-partisan basis since 1913.

Committees in both houses will be agreed on Monday.

CHRISTIANSON BECOMES GOVERNOR OF STATE

(Continued from Page 1)

herd wll return for further examina- responsibility to hold down appropriations.

Good Roads Bonds

The new governor's statement that the voters have said they "do not want increased bonded indebtedness," and a further statement that "we should create no new state obligations," were taken as indicating a determination to oppose the Babcock good roads $20,000,000 bond issue. He also stated that the state should "not accept any new form of federal aid conditioned on state expenditures."

Study Taxation

The legislature was urged to study taxation, not only from a statewide standpoint, but with a view to legislation which would curb local taxation. He urged reasonable limitations be placed on the power of municipalities to issue bonds.

Motorbusses

Motorbusses should come under the regulation of the state railroad and warehouse commission as common carriers, the same as railroads and street railways, he said.

Co-ordination of the state agencies having to do with conservation of natural resources was urged, and some definite plan to be worked out after departmental reorganization is accomplished, was hinted at.

Educational System Expensive

"Our educational system is expensive enough—let us now labor to make education intensive," he urged regarding the state's educational policy.

Worknig For All the People

"I am proceeding on the principle that what is best for the people as a whole is best for every class of people." He urged the slogan, "When in doubt, vote no."

"I can say without offense that legislatures sin more often by enacting laws than by defeating proposed measures.

"It would be to the credit of the 1925 legislature if it should pass fewer laws than any of its predecessors."

Gov. Preus Speaks

Governor Preus in retiring reviewed his administration.

"One party sought to establish in Minnesota a system of state socialism along the lines attempted before and since in North Dakota," Preus said. "A decisive victory was won."

He eulogized the late Senator Knute Nelson and urged that the legislature authorize the erection of a monument to correspond with the Johnson A. Johnson monument now in front of the capitol.

Wife Doing Good Work

"I have been bad off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist, I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.—Advt.

CARDINAL FINDS WRONG ON THRONE

EMOTIONALISM RULES, REASON CHALLENGED, CATHOLIC PRELATE DECLARES

New York, Jan. 7.—"Emotionalism has come into power!

"The time-honored principles of right and wrong, of personal responsibilities, are being questioned.

"The twentieth century finds reason challenged as to its supremacy."

Such are trenchant extracts from an interview on present-day problems granted by his eminence, Cardinal Hayes, one of the nation's great religious leaders. Cardinal Hayes sees truth in combat against an irrational individualism and the commandments being reduced to a minimum of obligation.

He continues:

"The commandments are honored more in the breach than in the observance. Only the pragmatic spirit of the day prevents their total neglect.

"'Thou shalt not steal' seems to be the whole law and the prophets as well. And even this is narrowed down to a man's material possessions.

"Steal his money and no prison sentence will be too severe. But steal his wife and it is condoned as romance, instead of the vile and rotten thing which it is.

"History teaches us a forceful lesson. The middle ages were decried as dark ages because religion was enthroned as queen. The enlightened 18th century beheld religion enthroned and reason crowned as king. The rationalism that followed played its part, not without great havoc among men. Kantism developed with the clouding of the faculties of the human mind to such an extent as to put truth on the defense against theory.

Pillows Not of Pine

The forest service says that pine needles are not generally used in making pillows. While the pillows are called "pine pillows," the needles are generally those of the balsam fir, or spruce—either red, white or black spruce. No special time of the year is specified for gathering these needles, since they are evergreens.

PERMANENT CITY IMPROVEMENT MADE

List For 1924 Totaled $56,205.32 According to City Engineer Campbell

MUCH DEVOTED TO PAVING

Latter Amounted to 17,195.2 Square Yards Concrete and 7,222.2 Square Yards Tarvia

Permanent city improvements completed in Brainerd during the season of 1924 totaled $56,205.32, according to a tabulation of permanent improvement work submitted by City Engineer R. T. Campbell to the city council at the regular meeting of that body on Monday evening.

Of this grand total $49,271.05 was used in paving; $3,087.53 in curbing; $1,596.89 in sidewalks, and $2,249.85 in sewers.

The paving done in Brainerd during the past season totaled 24,417.4 square yards, of which 17,195.2 square yards was of concrete and 7,222.2 square yards was of Tarvia construction. There were five paving jobs completed in the city during the 1924 season, which are as follows:

1. Concrete paving on North Fourth street between Kingwood and North Bluff avenue, 6,326.8 square yards, costing $13,729.16.

2. Concrete paving on North Sixth street, between Holly and North Bluff avenue, 2,900.6 square yards, costing $6,844.53.

3. Concrete paving on South Seventh street, between Oak and Rosewood streets, 4,526.8 square yards, costing $10,036.69.

4. Concrete paving on South Fifth street, between Laurel and Oak streets, 3,441.0 square yards, costing $7,535.79.

5. Tarvia paving on South Broadway between Laurel and Oak streets, 7,222.2 square yards, costing $11,124.88.

Curbing done in the city during 1924 amounted to 7,686 lineal feet, and cost $3,087.53. This improvement was divided as follows:

North Fourth street, between Kingwood and North Bluff avenue, 1,270 lineal feet, costing $517.77.

South Seventh street, from Oak to Rosewood street, 1,670 lineal feet, costing $701.54.

South Fifth street, from Laurel to Norwood street, 1,221 lineal feet costing $503.37.

Pine street, from Eleventh to Sixteenth street, 3,454 lineal feet, costing, $1,347.10.

Kingwood street, and West Bluff avenue, 38 lineal feet, costing $9.50.

Kingwood street and Chippewa street, 33 lineal feet, costing $8.25.

During the past season there were 1,046 square yards of sidewalks constructed in the city, at a cost of $1,596.89.

Two sewer projects were completed during 1924. Lateral sewer c-12a, on Eleventh street, between Quince and Portland avenue, 624 lineal feet, costing $979.50, and lateral sewer A-5a, in the alley between Second and Third avenues from G to I street, Northeast Brainerd, 807 lineal feet, costing $1,270.35.

The paving constructed consisted of reinforced 6-inch concrete, using washed gravel for coarse aggregate, and was placed on all streets so paved. On South Broadway a 3-inch Tarvia pavement was constructed using as a foundation the macadam pavement that was already in place.

The paving laid during the 1924 season brings the total of the permanent paving in Brainerd up to 126,078 square yards, or nine and a quarter miles. Adding the cost of this season's paving to that already constructed, brings the value of the permanent paving up to $454,308.21. This value is based on the actual cost of construction, according to the city engineer's report.

The curbing, with the exception of that done on Pine street, was constructed ahead of the paving. A desire to improve their street prompted the residents on Pine street to have their curbing built, says the report.

The sidewalks constructed represent 1,504 lineal feet of standard walk, located in various sections of the city. The amount of sidewalks as shown by the report was ordered in by resolutions of the council. Additional portions of walk were built throughout the city by property owners.

The sewers constructed are extensions of existing lateral sewers, and are serving the rapidly growing sections of the city.

Sewer and wiring permits were issued in accordance with the provisions of the ordinances governing same. Sewer permits issued totaled 46, and wiring permits issued totaled 36.

OBITUARY

Mrs. Jennie Healy Borden Born in 1851, Died on January 2, 1925

Mrs. Jennie Healy Borden was born in New Hampshire in 1851, and passed away on January 2nd, 1925 at the lake home of Thomas Russell, after only a few days illness.

In early childhood her parents moved to Minnesota, settling in the southern part of the state, and she has since made her home here.

She was united in marriage to James C. Borden in 1868, several years after the close of the Civil war in which he saw much active service. To this union were born three children, Florence, Eva and William. At the death of Mr. Borden's sister, they adopted and faithfully cared for three of her children, Maude, Minnie and Howard. Beside the children, one brother Will Healy, of California, survives the deceased.

Mrs. Borden was a faithful member of the Seventh Day Adventist church. She was a good mother, a kind neighbor, and had a host of friends who deeply feel their loss in her passing.

Mr. and Mrs. Borden were counted among the pioneers of Crow Wing county, coming here from the southern part of the state with an ox team and living first at Mille Lacs. Later, they moved to their farm home north of Merrifield.

Mrs. Borden was laid to rest beside her husband in the Mission Lake cemetery to await the call of the Life-Giver.

NEW GRIST MILL IN CITY

J. W. Hilliard, With Much Experience in Work, to Conduct Enterprise

HAD MILLS IN HAWLEY, ETC.

Will Install Modern Machinery in the Brainerd Plant

J. W. Hilliard, residing north of Brainerd, will open a grist mill in the city in the near future. The opening date will be announced in an advertisement in the Dispatch soon.

Mr. Hilliard has had much experience in his chosen work. He first took up milling at Hawley, in the early days when the grinding was done with stone burrs. For seventeen years he conducted a grist mill at New Prague.

Modern, up-to-date machinery has been ordered, which will include a mill for grinding of all kinds of cereals, an innovation in Brainerd. In addition to this, all kinds of feed will be ground.

LOIS JOHNSTON, SOPRANO

With Accompanist, Hubert Carlin, to Appear in Recital Here

Lois Johnston, noted soprano, will appear in Brainerd at the New Para theatre Sunday, January 11, under Brainerd Musical club auspices. Hubert Carlin, will be her accompanist and will also play several piano solos.

Some singers prefer opera as a medium for expression, others declare the concert stage is the best form of expression for their art and still others go in for a combination of the two.

Lois Johnston, prefers the concert stage as a means of expressing her own individuality and her own charming personality. Although she has had sensational success in operatic roles, this young soprano is happier when singing from the concert platform.

Miss Johnston believes that only though the concert stage is a singer enabled to give truly American audiences what they truly desire in a singer.

She strives to put into her programs selections devised to please all cultural musical tastes and critics all over the country have universally remarked how judiciously she blends into her appearances numbers that find an appeal with all her audiences.

Moreover she believes that the concert stage is a true test of the ability of an artist to charm an audience. Not only the voice, but the personality as well, counts on the concert stage, and Miss Johnston possesses both voice and personality in abundance.

MRS. WM. BEARSLEY PASSED AWAY

Hubert Lady Succumbed to Illness of a Month's Duration

FUNERAL ON THURSDAY

Services at Whitney Chapel, Rev. A. G. Patterson Officiating

Mrs. William Bearsley passed away at a local hospital on Monday afternoon, following an illness of over a month's duration. Death was caused by pneumonia.

Emma Hendrickson was born at New Richmond, Wisconsin, August 25th, 1879. While a young woman she moved with her parents to Brainerd, where the family lived for a number of years, later moving to Pillager, where they have since resided.

The deceased was first married to Guy Lasher, at Grand Forks, N. D. To this union was born one child, a daughter, Mrs. Eva Murray, of Little Falls.

Mr. Lasher died and his widow married William Bearsley about eighteen years ago. One child, a son, was born to this union, being Ernest Bearsely, of Brainerd.

The family has made its home at Hubert for the past twelve years, where Mrs. Bearsely is very well and favorably known.

Surviving her, beside her husband and children are her father, Henry Hendrickson, of Pillager, and two brothers, Oscar and Albert Hendrickson, of Bismark, N. D. One sister passed away four years ago, in Canada.

The funeral will be held at the D. E. Whitney chapel at ten o'clock Thursday morning, Rev. A. G. Patterson of the Presbyterian church, officiating, and interment will be made in the family plot in the Pillager cemetery.

The sorrowing family has the sincere sympathy of the community in its sad bereavement.

You already know all that motor cars have to offer in Superior Sixes, reserved judgment until you drive the great car, Hupmobile "8."

1823

Missionary Society

The annual meeting of the Missionary society of the First Congregational church will meet on Friday afternoon at the office of Mrs. Irma C. Hartley, in the court house.

The study period will be directed by Mrs. Harry Wilson, and is taken from "The Harvest," Chapter III, "Ming Kwong."

Members are requested to be present promptly at three o'clock and to come prepared to pay their dues.

Ladies Chorus

The first after holiday rehearsal of the ladies chorus will take place 7:30 Thursday evening at the Thos. Jones residence, 401 North Broadway. It is not too late for new members to join and anyone interested will be welcomed. It is highly important however from now on to have a full attendance at every meeting as there are to be only six rehearsals before the appearance in February of the ladies chorus on one of the programs of the Brainerd Musical Club. Please keep the coming six Thursdays free from other engagements and be on time at the rehearsals.

Our Garment Sales

Women who are economical are selecting dresses and coats at the big reductions we are making. The sale is on. Come.

Those Dress Bargains

We simply must have less dresses and these prices are our plan of obtaining a reduction. Here goes.

Pretty Flannel Dresses Striped and plain flannel dresses and some plain colored dresses. Values up to $20.00 at $9.95

Fine $25 Dresses Not just a few but a large line of new silk dresses, and you'll like the styles immensely $15.95

Charmeen and Twilline Beautiful late styles made of fine materials and made in styles you will want to possess, at $19.75

Twilline Dresses Not a one in this lot worth less than $25.00. Excellent new styles. Most remarkable values $15.95

Fine Silk Dresses Mostly our $19.75 dresses. Think what a selection this will be at this price $12.95

Our $30 Dresses Not just a few but many silk dresses in this lot. It is our greatest sale $19.75

64x76 Blankets $1.98

27-inch Heavy Outing 15c

And Those Coat Bargains

Beautiful garments. Remarkable qualities. Prices lower than they should be but we must have a clearance.

$50 to $95 Fine Coats A large selection of pretty fur trimmed garments and all reduced materially. Be sure and see these.

$39 Fur Trimmed Coats Seldom does such an amount of money buy such excellent coats $23.75

$25 Fur Trimmed Coats The most remarkable coat offering of the season. This price does not represent their worth $12.95

$42.50 and $45 Coats Choice garments, fine materials trimmed with very pretty furs. Don't let these pass at $29.75

H. F. Michael Co.

DAIRY INSPECTORS REPORT

During December Official Traveled 450 Miles in This Service

The following is the monthly report of the city dairy inspector, covering the month of December, as submitted to the city council at its regular meeting on Monday night:

During the month approximately 151 hours were spent in milk inspection service, and 450 miles traveled in this service. Nine milk licenses were granted. In the butter fat tests, 11 milk samples were tested and four cream samples, none of which were found illegal. In the sediment tests, 11 samples were found clean, the only ones tested.

Forty-four cows were tested for tuberculosis in the following herds: J. Soderlund, Otto Hill, L. J. Erickson, J. Selen, C. Erickson, Otto Metzer, I. J. Storstad, S. A. Stanley, J. Wolf, J. Kukko, E. H. Luepker, and T. Helgesen. None of the cows were condemned.

The following dairies and plants were inspected and found to be in a satisfactory condition: Echo Stock Farm, K. F. Karlson, Otto Hill, C. Oravala, W. A. Blakey, A. Liners, A. Fredstrom, Z. Fremling, M. Anderson, A. Moe, Mrs. Lund, H. Hermanson, Matt Hay, J. A. Peterson, C. Erickson, H. Hendrickson, M. Isaacson, Otto Metzer, J. Selen, L. J. Erickson, J. Soderlund, E. H. Leupker, I. J. Storstad, C. H. Smith and J. P. Johnson.

The physical examination was given to 193 cows in the following herds: A. Moe, Z. Fremling, M. Lund C. Oravala, K. F. Karlson, Echo Stock Farm, J. P. Johnson, A. Fredstrom, Otto Metzer, J. A. Peterson, H. Hermanson, M. Anderson, J. Selen, Matt Hay, M. Isaacson, E. H. Leupker, I. J. Storstad, W. A. Blakey, A. Liners, L. J. Erickson, Otto Hill, J. Sollerlund, C. Erickson, C. H. Smith and H. Hendrickson.

Clara Lutheran Church

The ladies aid of Clara Lutheran church will meet at the church parlors Thursday afternoon at 2:30 o'clock. Mrs. Victor Peterson and Mrs. Samuelson will entertain. Let us start the new year with every member present.

House Slippers 65c

BERLENBACH IS FAST RISING STAR

By FRANK GETTY
(United Press Staff Correspondent)

New York, Jan. 7.—No greater improvement has been shown by any rising young boxer this winter than by Paul Berlenbach of New York.

The youngster whose main asset in the ring was for some time nothing more or less than a hefty left hand had added speed, headwork and footwork to his repertoire.

Berlenbach demonstrated this in convincing fashion when he flattened Larry Estridge in less than two rounds. The Negro middleweight champion was giving away a lot of weight, of course, but has been known to do this with success in other bouts. Against the new Berlenbach, Estridge could do nothing but run until the knockout punch caught up with him. And Paul showed himself fast enough to get it there without a great deal of lost time.

This improvement in Berlenbach's ring form opens the way to interesting speculation. Paul's star, ascending, threatens to dim that of Young Stribling and other youngsters who are on their way to the titles now held by the old-timers, Greb and Tunney and McTigue.

There is talk of matching Berlenbach with "Tiger Flowers," and this should make a most interesting match, indeed. The latter is a comer, too, a Negro of no small promise. Fans who have not seen "Tiger Flowers" in action have missed one of the fistic treats of the winter. His recent exhibition against Johnny Wilson, fat ex-middleweight champion, did not extend the "Tiger," who stopped the Italian in a few rounds.

For a long time, it was held that Stribling would whip Berlenbach, because of the Georgia boy's superior speed and boxing skill. Stribling still has something on the New Yorker in these respects, but Berlenbach, as has been said, has improved tremendously in his footwork and apparently retained the sock which won him his popularity and the respect of fistiania's light-heavies.

Berlenbach has "arrived" back, after his defeat—a knockout by Jack Delaney. The latter, a clever boxer and fairly good hitter, appeared in the semi-final bout against Pal Reed when Berlenbach met Estridge at the Garden. It was a bit odd to see a victor taking second place to the man he had beaten, but there is little doubt as to what would be the outcome if Delaney and Berlenbach met again.

Estridge himself once was feared by Berlenbach. It was more than a year back when Paul was knocking over set-ups. One night one of the latter didn't show up, and Estridge made his way to the ringside and noisily challenged Berlenbach. The latter wisely refused the match. At the time he was no match for the Negro, a canny fighter with a good string of victories to his credit.

In the main, Berlenbach has been well handled. He has been brought along gradually, and given plenty to do punching over soft ones in a few rounds. He has fought as often as three times a week, but always "set-ups." Delaney was an accident. Paul learned a lesson. At the same time his being knocked out that night was one of the best things that ever happened to him. And it showed, furthermore, that he could take a licking and come back, which almost everyone who is going to be a champion has to be able to do.

Dan Hickey, one of the most astute managers in the fight game, has been piloting Berlenbach since the Astoria slugger switched from wrestling. Hickey stood between Paul and the fans who would have shouted him into too tough matches, and only gave in grudgingly to the Boxing Commission when absolutely necessary, and let his man meet Delaney, with disastrous results.

Jim Coffey, who made quite a stir in the heavyweight ranks for a time, was another "discovery" of Hickey's. Berlenbach looks likely to go a lot farther than the "Roscommon Giant."

CAPT. FAWCETT AT PINEHURST WINTER SHOOT

FACES THE TRAPS WITH AN ENGLISH HAND-TOOLED GUN

ROSCOE FAWCETT ENTERED IN A GOLF TOURNAMENT AT THE RESORT

Captain William H. Fawcett of Breezy Point Lodge is at the annual mid-winter trap shooting tournament at Pinehurst, N. C., with a new gun. In a letter to the Brainerd Dispatch, he writes:

"Mrs. Fawcett and I and Cpatain Roscoe and his wife are leaving New York (January 2) for Pinehurst. Roscoe is to take part in a golf tournament and will see what I can do at smashing the clay target at the annual midwinter handicap."

"As you are probably aware, this annual shoot at Pinehurst is the biggest trapshooting event in the United States in the winter time. I have just received a new $1,500 hand-tooled Woodward, over and under English gun. It is a marvelous piece of workmanship, although I expect it will take two or three months to break it in so that I can make good scores with it."

Frank Troeh of Portland, Oregon, Pacific coast champion and P. Miller of Dallas, Texas, were the high guns in the first 80 targets of the 160-target Sand Hill special shoot at Pinehurst, in connection with the annual midwinter trap shooting tournament. Both men broke 77 targets.

DRAINAGE FIGHT UP TO CONGRESS

LOWERING OF LAKE LEVEL WILL PERIL FREIGHT RATES, IS CLAIM

Madison, Wis., Jan. 7—The United States supreme court decision restraining the Chicago sanitary district from diverting more than 4,167 cubic feet per second from Lake Michigan disposes of only a part of the questions raised by the state of Wisconsin in its suit against Illinois and the sanitary district, Atty. Gen. Herman L. Ekern said today.

"The state of Wisconsin in common with other states, takes the position that the federal constitution grants no power to congress to authorize any diversion of the waters of the great lakes into the Mississippi river watershed."

The court's ruling, which was the result of an action started by the federal government, is the "first final step in the litigation begun more than 15 years ago," Ekern said.

"It fully upholds the authority of the United States to protect the interests of the people in our great lakes as natural highways for transportation. When it is kept in mind that our great lakes now carry a commerce equal to one-fourth of the total railroad tonnage of the United States, and that this is carried at about one-tenth of the railroad rates, the enormous saving in the development of lake transportation will readily be appreciated."

The attorney general asserted that the sanitary district undoubtedly will seek further delay through congressional action. A committee hearing is set for Thursday on a bill introduced by Sen. McCormick to legalize the diversion of 10,000 cubic feet a second.

"There is no justification for this, and it is as simple for Chicago to provide for a sanitary disposal of sewage as for the cities of Milwaukee and Cleveland and other large cities which have already dealt with the problem, Ekern declared.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost!

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully, dark, glossy and attractive.—Advt.

BRAINERD TO MEET CROSBY HERE FRIDAY

BASKETBALL TEAMS TO BATTLE AT THE LOCAL GYMNASIUM

KARL ADAMS, BIG TEN OFFICIAL, WILL REFEREE THE GAME

The Brainerd high school basketball team will meet the Crosby-Ironton team at the local gymnasium on Friday evening.

A fast game is certain, as all of the teams of the Eleventh district are very evenly matched this season. Karl Adams of St. Cloud, will referee Friday's game.

The new seating arrangement at the high school gymnasium will provide a comfortable seat for all, with a good view of the entire floor.

It is expected that a girls' basketball team from Crosby will meet the Brainerd girls in a preliminary contest, thus giving the spectators two interesting games in the one evening.

Local fans are asked to turn out in force on Friday evening, to give the Brainerd team the hearty support it deserves and will need against the fast range quint.

LOST AND FOUND—CALL 74

JOE BUSH'S THREE PET HOBBIES

Joe Bush, famous pitcher of the New York Yankees, recently traded to St. Louis for Urban Shocker, has three hobbies aside from baseball—hunting, bowling and his violin.

Just as soon as the ball season is over, Bush departs for the wilds of Maine or Canada and puts in a couple of months of roughing it.

During the winter he helps keep in condition by bowling. He is an expert at the ten-pin game.

At home Joe spends many hours at the violin. He also has an excellent voice. While with the Yankees he turned down several offers to go into vaudeville.

DEMPSEY TO FIGHT IN SUMMER, REPORT

NEW YORK MATCHMAKER PURPORTS TO HAVE RECEIVED WORD FROM KEARNS

New York, Jan. 7.—Jack Dempsey, heavyweight champion, will fight in New York next summer, Dan McKetrick, matchmaker of the new Henderson crater, in Long Island city who is reparded as Eastern manager for the champion, announced today.

The information, made public at a dinner in connection with breaking ground for the massive stadium, was received over the telephone from Jack Kearns in Los Angeles, this morning. McKettrick said Kearns also declared, according to McKettrick, that Dempsey is free from contracts, having affiliations with no promoter. —Minneapolis Tribune.

The most remarkable tobacco ever offered to pipe smokers — in quality, in value, in taste

Back *about* 1870, James N. Wellman developed a secret tobacco process which won instant and widespread favor. *It yielded a fuller-bodied richness, mildness and fragrance* which just seemed to "go" with a pipe. No one else ever knew his secret until we acquired "Wellman's Method" and by its means made "*Granger Rough Cut*"

Granger Rough Cut

RUB PAIN OUT OF RHEUMATIC JOINTS

For 65 years, millions have rubbed soothing, penetrating St. Jacobs Oil right on the tender spot, and by the time they say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism and pain liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.—Advt.
